

# INFANTS' HOSPITAL,

37 BLOSSOM STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-FIRST ANNUAL REPORT.

January 1, 1913, to November 1, 1913.

# INFANTS' HOSPITAL,

37 BLOSSOM STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-FIRST ANNUAL REPORT.

January 1, 1913, to November 1, 1913.

Notice will be given later as to the work which is to be carried on in the new Hospital on Van Dyke St., Boston.

At present the telephone will be Haymarket 326.

A Post-graduate course of instruction for Nurses is given by the Hospital Staff.

The Hospital gives a course of instruction to Nursery Maids, in the care of infants.

# OFFICERS OF THE INFANTS' HOSPITAL

## For 1914.

## REPORT OF THE MEDICAL DIRECTOR.

---

As the work of the Infants' Hospital is about to be transferred to the new Memorial Building on Van Dyke St., certain changes must necessarily be made in the administration.

The Medical and Surgical Out-patient Departments have been closed, as the out-patients in the future will be taken care of by the Out-patient Department of the new Children's Hospital which is in immediate juxtaposition to the memorial building.

The Medical Director requests all who wish to help in the furnishings of the new Hospital to send their gifts to him at 197 Commonwealth Ave., Boston. It is hoped that contributions both large and small will be given for this purpose.

The Infants' Hospital on Blossom St. was closed on October 1st, as it was necessary to prepare for the opening of the new building.

It is also hoped that all the friends of this old and needed charity will continue their benefactions and interest in the new building.

The new hospital building will afford excellent opportunities for the Post-graduate course for Nurses, and the School for Nursery Maids will be continued.

THOMAS MORGAN ROTCH,

*Medical Director.*

## REPORT OF THE LADIES' AID SOCIETY.

---

THE Annual Meeting of the Ladies' Aid Society in connection with the Infants' Hospital was held in April, 1913. The officers for the ensuing year are as follows :

President.

Mrs. RICHARD H. GORHAM.

Vice-President.

Mrs. R. J. CLARK.

Secretary.

Mrs. H. B. RICHARDSON.

Treasurer.

Mrs. WILLIAM SHEAFE, 111 Beacon St.

Committee for Cutting out Garments.

Mrs. J. GARDNER BRADLEY.

Mrs. F. BROOKS.

Mrs. R. F. CLARK.

Mrs. R. J. CLARK.

Mrs. LOUIS CURTIS.

Mrs. RICHARD GORHAM.

Mrs. CHARLES HARRINGTON.

Mrs. JAMES JACKSON, Jr.

Mrs. C. T. LOVERING.

Mrs. F. S. PARKER.

Mrs. H. B. RICHARDSON.

Mrs. H. D. SCOTT.

Mrs. WILLIAM SHEAFE.

Mrs. R. F. STURGIS.

Mrs. J. T. WHEELWRIGHT.

Mrs. J. V. WOODARD.

---

### ARTICLES FURNISHED BY THE LADIES' AID SOCIETY.

36 flannel night gowns, 48 flannel petticoats, 72 crib sheets, 47 crib spreads, 8 screen covers, 12 crib screens, 24 crib pillow cases, 8 laundry bags, 3 mothers' gowns, 6 nurses' gowns, 36 glass towels, 12 kitchen towels, 82 towels, 12 nurses' sheets, 12 nurses' pillow cases, 6 nurses' spreads, 500 napkins, 10 yards rubber sheeting.

# INFANTS' HOSPITAL

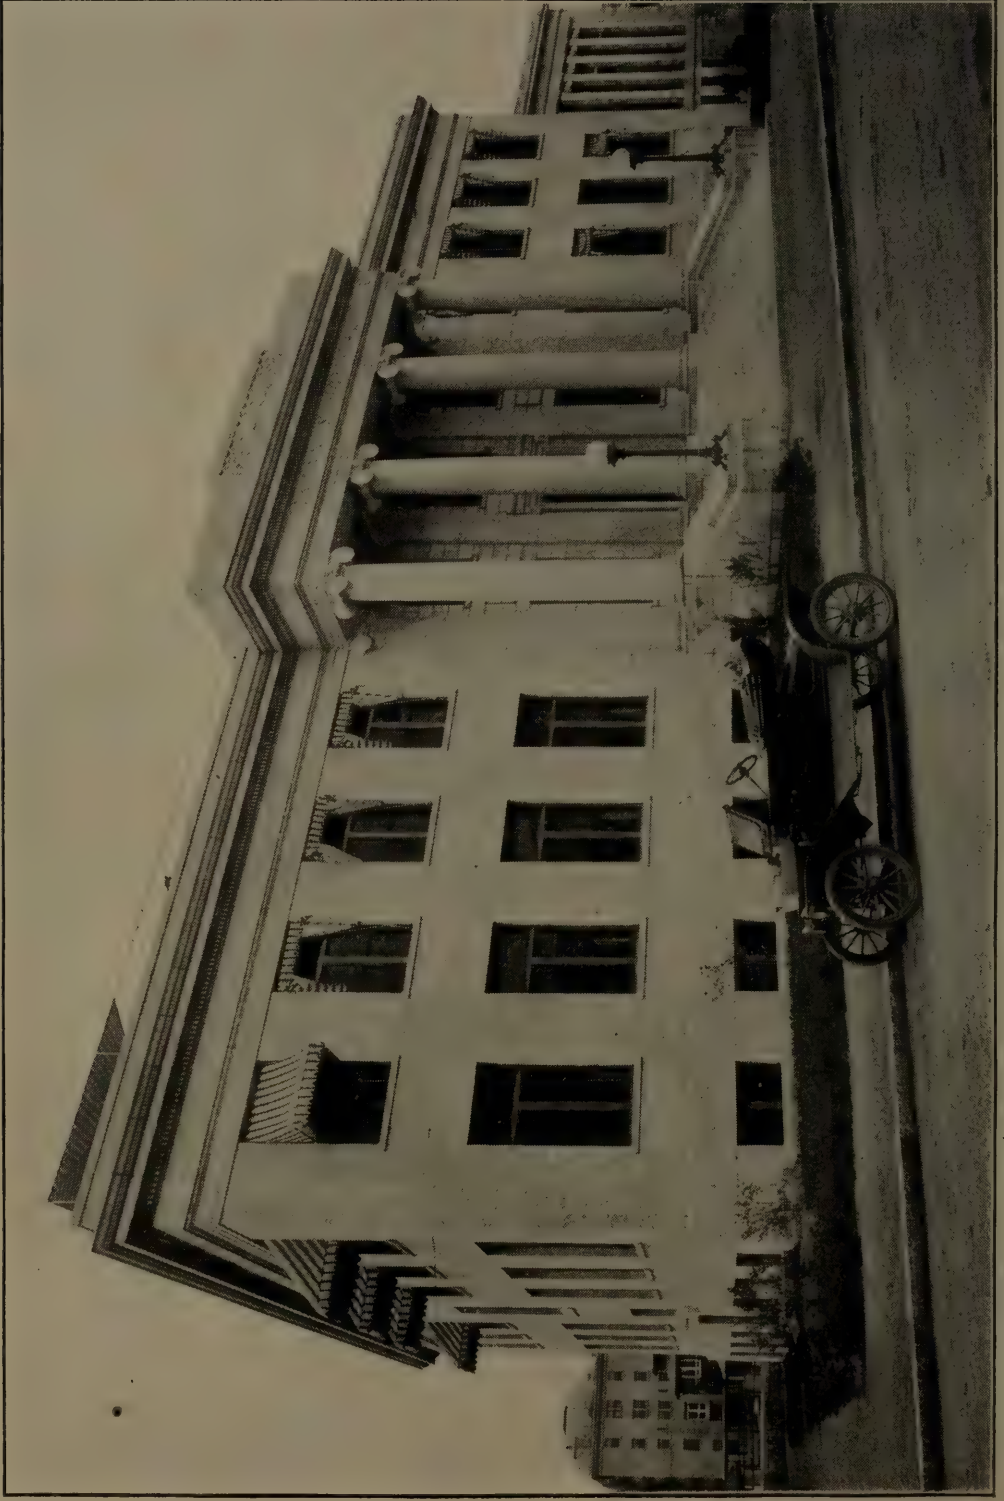

## THIRTY-SECOND ANNUAL REPORT

NOV. 1st, 1913, to JAN. 1st, 1915

INFANTS' HOSPITAL, ROTCH MEMORIAL BUILDING.

# INFANTS' HOSPITAL,

55 VAN DYKE STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-SECOND ANNUAL REPORT.

November 1, 1913, to January 1, 1915.

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone—Brookline 5500.

A Post-graduate course of instruction for Nurses is given at the Hospital by the Hospital Staff.

The Hospital gives a course of instruction to Nursery Maids, in the care of infants.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock.

# OFFICERS OF THE INFANTS' HOSPITAL For 1915.

## REPORT OF THE MEDICAL DIRECTOR.

---

THE new memorial building was opened for a few babies on March 3, 1914. By March 21 one large ward was filled with babies, and soon after that the Clarence John Blake Research Ward was opened for paying cases. By April 1st, the full complement of nurses and nursemaids was enrolled. Since that time up to January 1, 303 babies have been received in the wards.

The need for additional beds for sick babies is pressing. Omitting the summer accommodations furnished by the Floating Hospital, there are only sixty-six beds now available for sick babies in the city of Boston.\*

During the summer months the Infants' Hospital was compelled to refuse admission to two sick babies every day on account of lack of accommodations, and now the number has increased to three. At this rate, we are unable to take between 700 and 900 babies each year.

Our second large ward, temporarily being used by the National Civic League for the making of surgical supplies to be shipped to Europe, is equipped and ready for twenty extra babies. Given the funds, we could open it immediately, and in a week or ten days it would be filled with babies needing the attention that only a hospital can give.

We are now training nurses and nursery maids, as in the past. Arrangements have been made with the Faulkner Hospital in Jamaica Plain, and with the New England Baptist Hospital, whereby two nurses from each institution are taken in each of our courses for nurses. One nurse also comes from the Deaconess Hospital for each course.

At present, our nursing force consists of the Head Nurse, five undergraduates, and one post-graduate. Ten nursery maids are being trained for six months' periods in the Hospital. The demand

\* A few extra beds are available for surgical cases.

for places in these classes is very large, and we have a waiting list of nearly one hundred. There are many more applications for these nursery maids when they are graduated than we can fill.

In this connection it should be noted that the Massachusetts Babies' Hospital, the only other institution in New England that did this work, closed its doors in June last.

Our new building was planned not only for the care of sick babies, but also as a model for the instruction of the public, and but little provision was made for private patients. Owing, however, to the lack of funds, it was found imperative to increase our income by the admission of a number of paying patients. To accommodate these, it was necessary to use the model nursery, the premature ward and the House Officer's quarters, and to make certain other rearrangements in the Hospital. By this policy it has been possible to increase to a very considerable degree the amount of money received from patients, so that where the sum previously ranged from \$300 to \$700 a year, since our opening up to January 1, 1915 we have taken in over \$2,500.

I need not say that any reputable physician in the community may send his patients into our private rooms and keep them under his own charge.

The Hospital is now beginning to show activities in all the departments which Dr. Rotch planned. Our Medical Staff is giving a large amount of instruction in the wards, lecture room and milk laboratory, and we are in close co-operation with the Pediatric Department of the Harvard Medical School.

A course of lectures and demonstrations to mothers in regard to the care of infants and preparation of food is now being given, and a second course is planned to start when the first ends.

The scientific work of the Hospital is described in the report of the Physician.

Several courses in preventive pediatrics were successfully organized and carried out by the Director of that Department during the summer months.

The X-ray Department has been organized and very successfully operated, and has added greatly to the efficiency of the Hospital.

One of the great advances during the year is the establishment of the Social Service Department, of which a report will be found. This Department insures that each baby discharged from the Hospital will be followed up.

Our sincere thanks are due to the Ladies' Aid Committee not only for their work in organizing an entertainment last spring and for collecting a considerable sum of money in the fall months, but for the activities of their various committees and their general and great interest in the Hospital.

Last April a Wet-Nurse Directory formerly under the auspices of the Massachusetts Babies' Hospital was taken over by the Infants' Hospital. This fills a long felt need and is a notable addition to our activities. A report of this work will be found.

The needs of every hospital are many, and the Infants' forms no exception. First among them we need funds to open our second ward. This is less a need of the Hospital than of the general community. We need funds for a stenographer to work on the Hospital records, and to relieve the Assistant Secretary and release her for other work. We need a general helper to do technical work in the laboratory and in connection with the X-ray Department.

The death of the following members of the Corporation is noted with sorrow: Mrs. Causten Browne, J. Arthur Beebe, Henry Freeman Allen and Mrs. Thomas Morgan Rotch; also, Dr. Charles P. Putnam, Consulting Physician to the Hospital.

Finally, this report cannot close without an attempt to express the sorrow felt that one is not here to see the first results of the work with which he was more than any one else identified, and which in its present form owes its inception to his imagination, planning and earnest labor, Thomas Morgan Rotch.

GEORGE S. DERBY,  
*Medical Director.*

## REPORT OF THE PHYSICIAN.

---

SINCE its opening, the hospital ward has been full all the time, except during two brief periods when the ward had to be quarantined because of the appearance of contagious disease in one of the nursemaids.

The cases which form the majority of those which have been treated in the new hospital, represent the worst types of disease seen in infancy. There is now a very close co-operation among the various institutions treating babies. From the Milk and Baby Hygiene Clinics, the sick babies are referred to the Out-Patient Departments of such hospitals as the Children's, The Boston Dispensary, the Massachusetts General, and others. From these, the worst cases are selected for admission to hospital wards. Except during the short time in summer, when the Floating Hospital is open, there is no other hospital which has so many beds available for babies under two years of age, as the Infants' Hospital. Consequently, a large proportion of these bad cases, chosen by a careful process of selection, comes to us. I believe that our results have been very good, considering the character of the cases we have treated. There are still not enough beds available in Boston for the care of all these severe cases needing hospital treatment.

The connection between the Infants' Hospital and the Wet-nurse Directory, through which a certain amount of breast milk is available for our patients, has been of incalculable aid in saving some of our desperate cases. We could do still better work, and possibly could materially lower our mortality, if still more breast milk were available.

Much of the work of the Medical Staff has been devoted to perfecting the medical organization of the wards. We have been trying to attain completeness and thoroughness in such matters as records, physical examination, laboratory and X-ray investigation, consultations with specialists and hospital routine. Of great help

JOHN COLLINS WARREN WARD.

in our attempts to perfect this organization has been the substitution of the continuous plan of service, for the service in rotation which was used in the old hospital. Under the old plan, the frequent changes in the physicians in charge of the medical service, who served in rotation, made it difficult to attain a constant and thorough organization. Each physician in turn would reorganize the wards according to his own ideas, and these frequent changes were not so beneficial to the welfare of the patients, as a more constant plan of organization. Under the continuous service plan, the entire medical staff is on duty all the time, each physician having his own part in the organization, and all working with the senior physician as an organized team. This greatly increases the hospital's efficiency, through the building up of a permanent organization. The Medical Staff is still a very small one, much smaller than we shall need in the future, but I do not think it advisable to add to it until the growth of our organization creates a distinct need for more men.

I have been much interested, working in connection with our Social Service Department, in perfecting our relations with the various other institutions and out-patient clinics which act as feeders for the Infants' Hospital. Arrangements have been made which insure that every patient discharged from our wards goes back to the out-patient clinic which referred him to us, and a full account of all we have learned and done while the patient was in the hospital, is sent to the physician in charge of the clinic. Most of our patients, when sent home, still need medical care. We have tided them over the most serious period, but have to make room for babies who are more in need of hospital care. Our arrangement with the various out-patient clinics allows our work to be carried on, and not undone, so that any benefit they have gained is made permanent.

The work of the Social Service Department has been of inestimable assistance to the work of the Medical Staff. The investigating and improving of the home surroundings from which our babies come, while they are in the wards, so that they will not go back to the same conditions, is a most important factor in making the work done for the babies in the Hospital of permanent benefit to the community. Also, we are enabled, through the Social Service

Department, to follow the final results of our treatment and to learn when we were right, and when wrong. This ability to check up the final results of our work will, in time, greatly increase our efficiency.

The Hospital is being much used for teaching purposes. Dr. John Lovett Morse, Professor of Pediatrics, gives the regular lectures in Pediatrics in the Memorial Lecture Room; and holds some of his clinics there. Sections of both the third and fourth year classes are taught in our wards. A new course in milk modification, which is part of the work for the fourth year class, is given in our milk laboratory.

Considerable research work has been and is being carried on by the Medical Staff. This work includes the following subjects:— The Bacteriology of the Diarrhoeal Diseases; Fat Indigestion; Carbohydrate Tolerance; Immunity in Diphtheria as measured by the Schick Reaction; The Bacteriology of the Pneumonia of Infancy; Tuberculosis. Plans have been made for some research work in co-operation with the Carnegie Nutrition Laboratory, on Premature Infants, which will be begun as soon as material is available.

In December was held a Clinical Meeting of the Medical Staff, for which general invitations were issued to all connected with the Medical School and the various Hospitals. The following cases were demonstrated:— Infectious Diseases of the Newborn; Friedlander's Pneumonia; Tuberculosis of the Mediastinal Lymph Nodes. It is our intention to hold frequent meetings of this character. They will probably be organized in co-operation with the Peter Bent Brigham and Children's Hospitals.

CHARLES HUNTER DUNN,  
*Physician.*

## REPORT OF THE TREASURER.

---

THE Treasurer's last report was to November 1, 1913, at which date the Blossom Street Hospital buildings were closed. He now presents a supplementary report for November and December 1913, as well as his annual report for 1914. This 1914 report fails to show the yearly cost of maintenance, because, for one reason, the the present Hospital building was not opened until March 1st. The Treasurer estimates, however, that this yearly cost will be about \$24,500, which includes mortgage interest, and means running the Hospital, as at present, far below its normal capacity. To run the Hospital to its capacity we want about \$28,500 per annum.

Our policy should be to increase as fast as possible our investment funds, and to add as many as possible to our annual subscribers; but, for the present, until we have a much larger assured income, we can only hopefully rely for a very large part of the money necessary to maintain the Hospital, on donations, entertainments, fairs—in short on the help of our friends and the charitable. From these sources, we estimate, we should have to secure probably \$15,000 to 16,000 to run the Hospital to its full patient capacity this year. We wish we could feel warranted in doing this. And right here let it be said, that any belief that we have received, or are about to receive, a large endowment, has no foundation in fact. No such endowment has been received, and none is in sight in the near future.

The educational work of the Hospital progresses without obstacle, but the charitable work—the care of the sick babies of the poor—is badly handicapped for lack of income; so that it happens that in one of the most perfectly equipped infants' hospitals in the world, we find a large part of its wards without patients, while sick babies are being turned away from its doors. The pity of it is that

this occurs in a city where the hospital provision for infants is very limited indeed.

During the past year we have received under the will of Godfrey Morse, \$1000 and the balance of the bequest of Mrs. Mehitable C. C. Wilson, amounting to \$100. These receipts have been credited to the Hospital Investments account. We have also received from the estate of the late William A. Rust, the sum of \$600 which has been added to the Frank Davidson Rust Memorial Fund.

We wish to express our thanks to all who have given their time and money to the Hospital during the year just ended, — to the givers of cheques; to those who have endowed beds; to those who have managed and helped in the entertainments and sales; and to the Ladies Aid Committee who so promptly and effectively came to our rescue in December in response to our appeal to them for help.

---

The Treasurer's accounts herewith are to January 1st, 1915. Since that date we have made settlement for the old Hospital property on Blossom St. and Seabury Place, which was taken by the City of Boston by right of eminent domain. The amount received after deducting expenses incident to the sale, is about \$35,500.

At the Corporation meeting of January 27th the following votes were passed :

*Voted.*—(1) That of the money received from the sale of the Blossom St. and Seabury Place properties, \$35,000 be set aside during the life of the Corporation for the making of two trust funds, the principals of which shall be invested, and the income therefrom only used. That one of these trust funds shall be for \$25,000 and called the Dr. Henry Cecil Haven Trust, in recognition of the fact that it was mainly owing to Dr. Haven's efforts, and his very large contributions from his father's estate, that the Hospital was successfully established: and in recognition also of Dr. Haven's services as the Treasurer and Secretary, and directing Physician of the Hospital for some thirteen years after its incorporation.

That the other Trust Fund shall be for \$10,000 and shall be called the Elizabeth L. Douglas Memorial Fund, her son Dr. Haven having built, equipped and given to the Hospital the Surgical Ward in the old Blossom St. building as a memorial to her

—her maiden name being Elizabeth L. Douglas—. That a copy of this vote be sent to Dr. Haven by the Secretary.

(2) The foregoing vote shall be subject to the approval of Dr. Haven and shall not become effective until approved by him in writing. The Board of Directors are hereby authorized to adopt at their discretion such changes in the form thereof as Dr. Haven may desire.

It is a satisfaction to state that we have received from Dr. Haven his approval of these votes. The sad news of his death reaches us as this report goes to press.

NELSON S. BARTLETT,

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

WITH the abandonment of our Out-Patient Department, through which we kept in touch with many of our cases, and with our new equipment with its increased opportunities, the need for a Social Service Department became pronounced. As Staff, there was at first available only one part-time paid worker, but with the assistance of Miss Anna C. R. Dunn, a graduate of the School for Social Workers, as part-time volunteer, the Department was organized a month after the opening of the new building on March 3d. The Medical Staff of the Hospital helped immeasurably in this organization by letting us know in just which directions we could be of most use to them, and by their keen interest. As a new agency in the field of institutions for social betterment, we were obliged to feel our way rather slowly, and seek those particular lines where our work would count most. And our points of contact with existing agencies had to be defined and arranged.

The Social Service Department was organized along two main lines: 1st. The improvement of conditions surrounding our discharged patients. 2d. The medical following of all cases for the benefit of the Hospital Staff. Hence it will be seen that every patient admitted to the general ward must of necessity be known in the Social Service Department, whether the home conditions are good, bad or indifferent.

Our routine has developed with a better knowledge of our problems. Beginning our work after the Hospital had been receiving patients for four weeks, we tried to go backward as well as forward, and register, visit, and follow all cases already discharged; and although we did eventually catch up, we soon found that the essential thing was a knowledge of the family conditions while the patient was still in the Hospital. This was brought home to us only too vividly when one of our workers took a baby to the address given (the location being so good that we had considered that case

not as important as some back work), and found that it was the house of a friend, that the father was in prison, and the mother without a roof over her head. Back came the baby to the Hospital. Later, after various agencies had co-operated with us, it was boarded out by the Overseers of the Poor.

Almost immediately after a baby has been admitted to the general ward of the Hospital, an inquiry is made of the Confidential Exchange of Information, and as soon as possible the home is visited. In cases where the baby is sent to the Hospital by an agency which we know is following the social condition of the family, this visit is omitted. Since all cases come to this Department, there are a great many in which one visit to the home is enough to convince us that there is no further necessity for social investigation. In others, alas! we find all sorts of needs, and it is our task, either by our own work or in co-operation with others, to try to remedy such defects that there will be a reasonable chance for a favorable convalescence. The Medical Staff is in the closest touch with us, and is very helpful in letting us know which patients are likely to be able to go home soon, and in holding over cases where we are not quite prepared for their discharge.

Upon discharge, the Assistant Physician sends to us a blank, showing the date of discharge, diagnosis, formula, and a short history of the case. This is copied upon our records, and a copy is sent to the Physician or agency which sent the patient to the Hospital.

The follow-up work varies greatly in different cases. Some go back to doctors or agencies from whom we ask for a report at intervals of one month, six months and eighteen months after discharge. These routine reports are especially requested by the Medical Staff, and all the doctors take great interest in the information which we obtain, often asking us how such or such a baby, perhaps discharged many months ago, has done. Some cases are followed closely until we are reasonably sure they will do well, when they are closed for the same intervals. Some are followed closely for a much longer time. And in this following, besides the actual medical condition of the baby, we work on the social condition of the family. Cases

too distant to visit are kept in touch with by letter, and some of the letters from grateful mothers make pleasant reading.

A few examples may be of interest :

J. W., aged  $3\frac{1}{2}$  mos., one of twins, the other of which died. A visit to the home discovered the mother in a very melancholy state, owing to the death of the other baby. A friend helped to persuade her to go to a Nerve Clinic, from there she was sent to an Eye Clinic, where glasses were ordered and the money advanced by the Social Service Department. The Staff made a supreme effort to send the baby home soon, as it was considered best for the mother to have the care of it to occupy her. For a time, until better, she went to live with her mother. The Milk Fund supplied the milk free of charge. Now the family is boarding all together with friends, and about to set up housekeeping with new courage. The baby is doing splendidly.

L. L., aged 3 mos. Father young and hard working. Mother very ill in City Hospital. Upon discharge, the baby went, at the mother's request, to her mother's, where it received such poor care that it was soon re-admitted. In time for its second discharge, arrangements had been made with the Massachusetts Babies' Hospital, and the baby is being boarded in the country, the father paying part cost, until the mother is well enough to care for it.

During July and part of September a friend gave us the services of a trained worker, and since August, we have had, for a month at a time, one of the pupil nurses as visiting nurse. Miss Dunn has continued as a part time volunteer and Miss L. B. Nissen has given us clerical assistance.

The statistics of our work may give an idea of the time spent. We have 173 families registered in the Department, exclusive of those of the Wet-nurse Directory, which also come under our supervision. 419 visits have been made. 34 districts have been covered by our visitors, including those as far away as Salem, Natick, and Weymouth. 30 agencies have been co-operated with. Letters and telephone calls are many.

It is a satisfaction to report that the relations between the Social Service Department and the homes we visit have been most friendly,

IRRIGATION ROOM.

and that we almost invariably meet with confidence and co-operation from those we try to help.

We also gratefully acknowledge the generous gifts of clothing and toys, which have given great comfort and pleasure to many babies who otherwise would have had very little this winter.

The time will come when this work, inadequate now in many directions, cannot be properly carried on with our present staff. We look forward to having a full time-paid worker, a clerical assistant, and a corps of interested volunteers. Soon also we hope to establish a Case Committee, composed of our workers, members of the Ladies' Aid Committee, and one or two trained workers in other fields.

MARGARET FARQUHAR, R. N.

343 Beacon St., Boston.

---

## REPORT OF THE SECRETARY.

When the Infants' Hospital was moved to its new building last March, the name of this organization was changed from the Ladies' Aid Society to the Ladies' Aid Committee of the Infants' Hospital.

Formerly there existed a number of independent committees whose activities have now been absorbed by the Ladies' Aid Committee, thus unifying the work of the Hospital more than was possible under the previous system.

The membership is of two kinds, active and associate; the active members paying dues of \$1.00 a year and the associate members \$2.00 a year. At present the committee consists of eighty-three active and fifteen associate members.

The following committees have been formed: Executive, Cutting, Social Service and Entertainment.

### Executive Committee.

Mrs. RICHARD H. GORHAM, *President*.

Mrs. ROBERT J. CLARK, *Vice-President*.

Mrs. HOMER B. RICHARDSON, *Secretary*.

Mrs. MARCUS M. KIMBALL, *Treasurer*, 343 Beacon St., Boston.

Mrs. J. GARDNER BRADLEY, Chairman Social Service Committee.

Mrs. CHARLES HARRINGTON, Chairman Cutting Committee.

THE MEDICAL DIRECTOR (*ex-officio*).

## Committee for Cutting out Garments.

Mrs. CHARLES HARRINGTON, *Chairman*.*dis April 15* ~~MRS. STEPHEN H. BENNETT.~~

MRS. J. GARDNER BRADLEY.

MRS. FREDERICK BROOKS.

MRS. A. E. CHILDS.

MRS. R. F. CLARK.

MRS. R. J. CLARK.

MISS E. K. IDE.

MRS. M. M. KIMBALL.

MRS. C. T. LOVERING.

MRS. F. S. PARKER.

MRS. H. B. RICHARDSON.

MRS. H. D. SCOTT.

MRS. R. F. STURGIS.

MRS. J. T. WHEELWRIGHT.

## Social Service Committee.

Mrs. J. GARDNER BRADLEY, *Chairman*.

MRS. F. D. CROWNINSHIELD.

MISS E. K. IDE.

MRS. J. SYDNEY STONE.

MRS. W. B. WHEELWRIGHT.

## Entertainment Committee.

Mrs. HOMER B. RICHARDSON, *Chairman*.

Mrs. Harrington reports for the Cutting Committee the following articles furnished :

"36 large flannel night gowns, 26 small flannel night gowns, 36 large flannel petticoats, 26 small flannel petticoats, 6 dozen cotton night gowns, 48 crib sheets, 54 crib spreads, 5 mother's gowns, 36 crib pillow slips, 36 crib screens, 500 napkins, 4 dozen damask towels for babies, 24 glass towels, 12 dish towels, 12 nurses' sheets, 12 nurses' spreads, 12 nurses' pillow-cases, 2 dozen sheets, 2 dozen pillow-cases and 1 dozen spreads for private rooms, 18 surgical crib spreads, 12 yards rubber sheeting."

Mrs. Bradley reports for the Social Service Committee :

"This committee has recently been formed to aid Miss Farquhar in her Social Service work. Its only form of activity so far has been to collect clothing for infants and children of all ages, for which there is a constant demand. Any contributions of this kind will always be gratefully welcomed by Miss Farquhar, and can be sent to her at the Infants' Hospital. The committee hopes and expects to enlarge its sphere of usefulness as time goes on."

Mrs. Richardson reports for the Entertainment Committee :

"Four teas were given in April and May by the Ladies' Aid Committee, which were largely attended and most successful. Many visitors were shown over the new Hospital. A Cabaret was given at the Copley Plaza in May, the net proceeds of which amounted

to \$2,120.67. A small dance was given in Nahant for the benefit of the Ladies' Aid Committee, the proceeds of which amounted to \$246.30."

I do not wish to close this report without speaking of the splendid amount of \$2,296.25 raised by the Ladies' Aid Committee in response to a special appeal for money for the running expenses of the Hospital. The sum of \$2,142.25 was given to the Treasurer before the end of the year 1914, and \$154 has been handed in since the new year began.

Respectfully submitted,

MARY KING RICHARDSON,

*Secretary.*

CLARENCE JOHN BLAKE RESEARCH WARD.

## WET-NURSE DIRECTORY.

---

THE Wet-Nurse Directory, which formerly was a part of the Massachusetts Babies' Hospital, has been under the direction of the Infants' Hospital since April 22, 1914.

A house of ten rooms has been provided, consisting of a kitchen, dining-room, sitting-room, office, five bed-rooms fitted to accommodate two wet-nurses apiece, a nursery for the babies, the matron's room and a bath-room.

Our object in taking wet-nurses to the Directory is primarily to supply healthy, human milk to babies who are ill and for some reason deprived of their own mother's milk. At the same time we have an opportunity to help the young woman who has become a mother out of wedlock or the deserted wife who is left to support herself and one, or often two children. The mother and baby are examined by our physicians, a Wasserman test is made, and no case accepted except when found to be free from any infectious or contagious disease.

While in the Directory the mothers are taught personal hygiene, the care of the babies, and light house-work. They are allowed a great deal of time with their babies in order to develop the responsibility of motherhood. We do not allow a baby to be separated from its mother, and we ask the co-operation of the employer in encouraging the young woman to stand by her baby.

The expense of caring for the wet-nurses at the Directory is very great, as they need a great deal of personal attention and training. They are often run down from lack of sufficient food during pregnancy, and so are in need of a most generous and nourishing diet. After leaving the Directory each mother is assisted individually and helped to the kind of work for which she is best suited and has a liking, and in which we feel she can be happy in the future.

The charge for a wet-nurse is \$15 a week (which should be paid direct to the Treasurer). Of this, \$8 goes to the mother and \$7 to the Directory, so that it may be put as nearly as possible on a self-supporting basis. Drawn breast milk may be obtained at the Directory, when advised by a physician, to tide over a critical period.

The Social Worker is notified if any difficulties arise, in order that an effort may be made to set things right for the employer as well as for the wet-nurse. The Social Worker, Miss McKinnon, is at the Directory daily between 11 and 1 o'clock.

When a wet-nurse is no longer needed in a family she returns to the Directory where she remains pending another call, or if no longer able to nurse a baby, until a plan for her future can be made.

The Directory for wet-nurses gives the babies an opportunity in life which they could not get otherwise and makes it possible to save the lives of many sick babies who otherwise would have died.

From April 22, 1914 to January 1, 1915 there have been fifty-six applicants examined, six of whom have been rejected. Forty-nine wet-nurses have been admitted to the Directory, and forty-two have been placed in families.

The Directory for Wet-nurses has co-operated with the following societies :

Boston Lying-in Hospital, Florence Crittenton League of Compassion, House of Mercy, Instructive District Nursing Association, Massachusetts Babies' Hospital, Peter Bent Brigham Hospital, State Hospital (Tewksbury), Society for Helping Destitute Mothers and Infants, Talitha Cumi Home.

## THIRTY-THIRD ANNUAL REPORT

JAN. 1st, 1915, to JAN. 1st, 1916

*Photo by E. F. Turkington.*

INFANTS' HOSPITAL, ROTCH MEMORIAL BUILDING.

# INFANTS' HOSPITAL,

55 VAN DYKE STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-THIRD ANNUAL REPORT.

January 1, 1915, to January 1, 1916.

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone—Brookline 5500.

A post-graduate course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Hospital.

The Hospital also controls a Directory for Wet Nurses at 63 Binney Street, Brookline. Telephone—Brookline 2930.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock.

## REPORT OF THE MEDICAL DIRECTOR.

---

THIS past year, the second in our new building, has shown a steady increase in activity within the hospital. We have during this year keenly felt the restricted number of beds available, for although nearly four hundred sick babies have been admitted it has been necessary to refuse admission to approximately nine hundred — not because beds were lacking, but because the requisite funds to maintain such beds were not available. Fortunately these funds, sufficient for the year to come, have now been supplied, and we can celebrate the beginning of our third year in this building by opening the hospital to its full capacity.

It was the intention and desire of Dr. Rotch that the Infants' Hospital should take a leading part in the education of the public as to all matters touching upon infant life. During the past year, in addition to the routine work of training nurses and nursemaids and to the regular courses for students attending the Harvard Medical School and the summer courses for graduates, a step in advance has been taken. Several courses have been offered for the purpose of educating young mothers in the care of infants. These courses have been well attended, and we have many testimonials as to their value. Last spring a course was given to the pupils of "The Garland School of Homemaking," and arrangements have now been concluded with Simmons College for the ensuing year whereby some eighty students will be able to come to us for a similar course of instruction.

Our Superintendent, Miss Sparrow, who since our installation in these new quarters has given faithful and efficient service, left us at the close of the year to be married. It is fitting that a record of appreciation of her services to the Hospital should be made. Miss Sparrow's place has been filled by Miss Elinor D. Gregg. Mention also should be made of the faithful volunteer service rendered

the hospital by Miss Julia H. Shepley who has typed all the medical records for the past nine months.

The Social Service Department has greatly extended its work during the past year. Two hundred and nine new cases have been referred to it, but at present our small force is, although willing and enthusiastic, unable properly to handle the work. We have only a portion of the time of one paid worker, Miss Farquhar, and although she and her faithful volunteer assistant, Miss Dunn, may be counted upon to do their utmost, the larger number of cases we shall have in the next year cannot possibly be taken care of. Social service work is absolutely essential to the work of the Hospital if it is to be the force in the community which it is expected to be. We could make good use of one full-time and one half-time worker.

Early last spring the Wet-Nurse Directory moved from its distant quarters to a house on Binney Street in close proximity to the Hospital. Sixty-eight wet-nurses, since then, have been placed in private families and two have been constantly on call to meet the needs of the Hospital. This directory, the only one of its kind in New England as far as I know, is of the utmost value to the community, and deserves to be better known and more widely utilized.

The Ladies' Aid Committee is showing great zeal in furthering the interests of the Hospital, and grateful recognition for their services should be given. It is due to their efforts that a sum of money has been raised this winter which enables us to use the much needed beds which perforce, up to this time, have been idle.

The death of the following members of the Corporation is noted with sorrow, Francis C. Foster and Henry C. Haven.

GEORGE S. DERBY,  
*Medical Director.*

## REPORT OF THE PHYSICIAN.

---

During the past year it has become quite clear what the medical work of the Infants' Hospital is to be in caring for the sick babies of the community. Part of this work is the same as in any hospital for acute disease. A certain number of our patients are admitted for acute self-limited diseases, for the proper care of which the resources of a modern hospital are urgently needed. These cases can be cared for in the Hospital until they are entirely well.

The larger proportion of our cases represent chronic conditions of various kinds, particularly disturbances of nutrition. By a process of selection, the worst cases of this class come into our wards. Such conditions are due to a combination of congenital constitutional weakness with faulty care and bad hygienic surroundings, and either factor may be the chief cause. These cases cannot be kept in our wards until they are entirely well; it would require a hospital of hundreds of beds to do this. They can, however, be taken for a time from their faulty hygienic surroundings, and given a start, and tided over the worst period with the aid of our milk laboratory and wet-nurses. After their discharge, through the valuable work of our Social Service Department, they return to homes in which the faulty conditions have been removed or ameliorated, and are followed up in their subsequent history, so that we make sure that they continue to have proper medical supervision.

The serious diseases of the first two years of life are often very obscure, yet successful treatment depends upon an accurate diagnosis. Modern diagnosis has become very complex, with a great number of diagnostic methods which cannot be applied either in the homes of the patients, or in an out-patient clinic. This institution provides a place where every known diagnostic method is available. An important part is played by the hospital in making the diagnosis in these cases, and in starting the proper treatment. When the patient is discharged, a full account of our diagnosis and treatment

is transmitted to the physician who is to have charge of the case. The results of our work, as reported by the Social Service Department, especially in tuberculosis and nutritional disturbances, have been very gratifying.

Our medical staff is far too small. The amount of routine work required by modern methods of diagnosis and treatment is enormous. It is difficult to enlarge our Staff, because the best younger men who are beginning hospital work hesitate to give their time to an institution which treats only children under the age of two years. This difficulty has been partly overcome through an arrangement by which one of the Staff of the Children's Hospital is given leave of absence for a year to work with us. It has also been partly overcome by our efforts to perfect the organization of the routine medical work. The needs of our patients in diagnosis and treatment must of course be our first care, and I do not think that our Staff is too small to carry on the actual medical work required, if we give it the greater part of our time.

Where we are handicapped by our small Staff is chiefly in the matter of medical research. The Infants' Hospital was designed to be, and should be, a centre for research of the best type on the problems presented by disease in early life. The members of the Medical Staff would like to carry out this purpose, but recognizing that their first duty is the medical care of their patients, and that their second duty is efficient teaching of the undergraduate and graduate students who come to the hospital for instruction, they find that they have but little time left which can be devoted to research. The difficulty confronting the men in actual charge of patients, who desire to pursue thorough lines of scientific research, has been recognized by many hospitals, and has led to the establishment of salaried positions for research workers. At the present time, thorough scientific research demands all a man's time, and men who will give all their time to it without a salary cannot be obtained. I mention this matter realizing that at present the highest ideals of the hospital in the matter of research cannot be attained, but hoping that it will be seriously considered at some future time. Our chief need is a salaried pathologist to do the routine work and research work in pathology. Our second need, if we become in the future a great

Copyrighted by the Boston Photo News Co. JOHN COLLINS WARREN WARD.

research hospital, would be a salaried chemist, and our third need would be a salaried bacteriologist.

In spite of present difficulties, a considerable amount of research has been carried out during the year by the Medical Staff. Some of it has already proved to be of actual practical value in the medical care of the babies in the hospital wards. For example, four cases of a certain diseased condition all ended fatally. We believed that this result could be attributed to a deficiency in the available methods of diagnosis, which caused so much delay that surgical interference came too late. We worked out certain improved methods of diagnosis in the hospital wards, and since these studies have been carried out, three cases of the same condition have all recovered. Another procedure, a method of treatment, worked out in the hospital wards, has already apparently saved two babies admitted in a moribund condition.

Papers have been published, based on work done at the hospital, on the following subjects:—Studies on Fat Indigestion in Infancy; Studies on Sugar in Infant Feeding; Diagnosis and Treatment of Pyloric Stenosis and Pyloric Spasm at the Infants' Hospital; Bronchial Lymph Glands in Infancy; Tuberculosis in Early Life; Friedlander's Pneumonia; Congenital Cirrhosis of the Liver.

In conclusion, I wish to express my appreciation of the very faithful work of my colleagues on the Medical Staff, and of their valuable co-operation in perfecting the organization of the medical routine. I wish also, in the name of the Staff, to express my appreciation of the admirable executive management of the Hospital, which is rendering our work so much easier.

CHARLES HUNTER DUNN,  
*Physician.*

## REPORT OF THE TREASURER.

---

The cost of maintaining the Hospital for the year 1915, including interest paid, was \$25,623.38. For the year 1916, with all its wards in service, it is now stated that we shall need at least \$6,000. more. The money received from our December appeal and paid into the Old Colony Trust Co. does not appear in our report as a part of 1915 income. Leaving this out, therefore, and not including \$475.00 specifically given for the cost of maintaining the Draper Ward, just opened, we have a shortage of income for 1915 of \$1,653.20. This deficit has been charged off to investment account, and is the only shortage of income so charged off since we have occupied the present building.

From the December appeal we have received \$13,046.50. The names of the donors are published in this report, and the Treasurer in behalf of the Hospital takes this opportunity to again thank them for their liberal response to our call for help. He also wishes to record, that the plan of the appeal, and the carrying out of the appeal in every particular, was the work of the Ladies' Aid Committee, and the Junior Branch to whom we are indebted for the time and labor they so generously gave.

In the past year we have received payment for the old Hospital property on Blossom St. Approximately the whole of this sum, after deducting expenses incident to the sale, has been used to establish the Doctor Henry Cecil Haven Trust of \$25,000, and the Elizabeth L. Douglas Memorial Fund of \$10,000. This action was in accordance with the vote of the Corporation which was published in our 1914 report. The money has been invested as shown in the Treasurer's account.

In 1906, Mrs. Roger F. Sturgis collected for the new Hospital, then to be built, the sum of \$850. This was placed in Dr. Thomas M. Rotch's hands as Trustee. The Executors of Dr. Rotch's estate have paid over to the Hospital the \$850 collected, with interest,

the amount received being \$1,095.44. Of this, \$990 has been invested, and the remainder (\$105.44) used for the general expenses of the Hospital. A list of the donors will be found in another part of this report.

We have also received from the Executors of Philip C. Lockwood, the sum of \$5,118.89 for the endowment of a bed to the memory of Maria D. Lockwood.

The report of the Auditing Committee, just at hand, shows that the present value of our investments, including our Trust Funds, is \$135,977.17, the income from which for 1916 should be about \$6,475. If we deduct from this \$2,475, the annual interest on our \$55,000 mortgage note, we get a net income from our investments of \$4,000, which is but a small contribution to the amount needed for the general expenses of the Hospital. To repeat what we stated in last year's report, we see nothing "coming our way" in the near future in the form of an endowment fund, or an increase in our investment account. While therefore, we start the present year in a comfortable way financially as regards immediate needs, and with the satisfaction of seeing the Hospital open to its full patient capacity, we must still look ahead and try and find some means to increase our fixed income.

NELSON S. BARTLETT,  
*Treasurer.*

CHARLES F. KELLOGG, *Auditor.*

JANUARY 24, 1916.

BOSTON, JANUARY 31, 1916.

Having been appointed an auditing committee at the Annual Meeting of the Infants' Hospital Corporation on January 27, 1915, we have had the accounts audited by Charles F. Kellogg, Public Accountant, and have examined and verified the Bonds, Stocks and Mortgages in the hands of the Treasurer, and found them correct.

WILLIAM ROTCH,  
*Auditing Committee.*

## STATEMENT OF INVESTMENTS.

DECEMBER 31, 1915.

### Hospital Investments:

- ✓ \$500 Parti-mortgage 5 per cent.
- In Cambridge Trust Co. \$22.50.

November 22nd. 1916.

Mrs. Ward Thoron,

Denvers,

Mass.

My dear Mrs. Thoron,

I am sorry to have been so long before sending you the certificate of Laura's physical condition .There was a little doubt in Dr. Howell's mind as to a place in her lung having slight dullness. He did not think that there was anything active but thought he heard a trace of the same breathing that he heard when she had a cold last spring. He says that he is not willing to decide that there is still anything there at all but would like to have some one new go over her chest . We propose to have Dr. John Hakes see her.If this arrangment is satisfactory to you I will send the findings of Dr. Hakes

immediately on receiving them.

Dr. Faunce has seen her nose and throat  
and pronounces them in good shape.

I am very sorry for this delay and hope  
that it will make no difference in our plans.

I am,

Yours sincerely,

Superintendent.

Ernest Temple -

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

During the past year 209 new cases have been referred to the Social Service Department. These added to the number given in the last report make a total of 482 families we have kept more or less in touch with, according to their necessities. The demands which we have to meet are many and varied. In addition to the visits made to the homes many letters of inquiry are written and received. Cases too distant to visit are kept in touch with by letter. Thirty-eight districts have been covered by our visitors and we have co-operated with many charitable agencies.

We are greatly indebted to our volunteer worker, Miss Anna C. R. Dunn, who has worked so faithfully in this Department. Miss L. B. Nissen and Miss Marguerite Harrington have given clerical assistance.

The follow-up work is a systematic effort to investigate and correct the conditions found in the homes, family life and the surroundings, which would prevent good care of the patients after leaving the Hospital. Also to give medical supervision to the babies and instruction to the mothers. For example: what is the use of the physician prescribing a carefully worked-out milk formula for a baby and looking for results if, as in many of our cases, the parents cannot afford to buy clean milk, or for various reasons are unable to separate and recombine the milk properly without supervision? The modern treatment of Tuberculosis is mainly a question of hygiene and nourishment rather than the prescribing of specific drugs; consequently such discharged patients are referred to this Department for close supervision and must be visited at definite intervals. In this work we feel that good progress has been made. Parents are learning the value of clean milk and the traditional fear of fresh air for sick babies is being gradually overcome.

The Medical Staff is in close touch with this Department and notifies the Social Worker when a baby is considered sufficiently

improved to go home. Upon discharge a copy of the Hospital record is sent to the Physician, Dispensary or Agency from which the baby was referred.

In relief work our activities are mainly in enlisting the efforts of other charitable organizations.

We gratefully acknowledge the generous gifts of clothing. We do not make a practice of distributing clothing among our families but we are sometimes confronted with emergencies which require practical and immediate attention.

A Case Committee has been established during the year, composed of our workers, delegates from the Ladies' Aid Committee and a trained worker from the Associated Charities. We bring before this committee our most difficult problems and receive many helpful suggestions.

During August and September, the vacation months, Mr. Thomas Dunn kindly gave the services of a part-time worker. We have also had, for a month at a time, one of the pupil nurses as visiting nurse.

The time has come when this work, inadequate now in many directions, cannot be properly carried on with the present staff, which consists of only one part-time paid worker and a part-time volunteer.

MARGARET FARQUHAR,  
*Social Worker.*

## THE LADIES' AID COMMITTEE.

---

President.

MRS. J. GARDNER BRADLEY.

Vice-President.

MRS. ROBERT J. CLARK.

Secretary.

MRS. HOMER B. RICHARDSON.

Treasurer.

MRS. MARCUS M. KIMBALL.

343 Beacon St., Boston.

---

### REPORT OF THE SECRETARY.

The Ladies' Aid Committee has held regular meetings at the Hospital, the first Tuesday in each month from October until June, with an average attendance of twenty percent of the members at each meeting. The committee is now working under their first set of By-laws, adopted at the February meeting. The membership list has been thoroughly revised and consists at present of seventy-eight active and forty-four associate members.

Since October 1st the Committee has financed and conducted a newspaper appeal for funds to open and run the hospital to its full capacity for one year, which has met with the greatest success and generosity, the figures of which will be found in the Treasurer's report.

A Junior Branch of the Ladies' Aid Committee was organized in October with dues of \$1.00 a year. Its duties are to assist the Ladies' Aid in its work for the Hospital.

### Executive Committee.

MRS. J. GARDNER BRADLEY, *President*.

MRS. ROBERT J. CLARK, *Vice-President*.

MRS. HOMER B. RICHARDSON, Secretary and Chairman Entertainment Committee.

MRS. MARCUS M. KIMBALL, *Treasurer*, 343 Beacon St., Boston.

MRS. FRANCIS B. CROWNINSHIELD, Chairman Social Service Committee.

MRS. CHARLES HARRINGTON, Chairman Cutting Committee.

THE MEDICAL DIRECTOR (*ex-officio*).

## Social Service Committee.

MRS. FRANCIS B. CROWNINSHIELD, *Chairman*.

MRS. J. GARDNER BRADLEY.

MRS. J. SIDNEY STONE.

MISS E. K. IDE.

MRS. W. B. WHEELWRIGHT.

## Entertainment Committee.

MRS. HOMER B. RICHARDSON, *Chairman*.

## Junior Branch of the Ladies' Aid Committee.

MISS CHARLOTTE BAYLIES, *Chairman*.

MISS GRACE BROOKS.

MRS. A. W. REGGIO.

MISS ELIZABETH BENNETT,  
*Assistant Chairman*.MISS SUSAN B. STURGIS,  
*Secretary and Treasurer*.

MISS M. FRANCES CLARK.

MRS. E. WIGGLESWORTH.

MISS HELEN DRAPER.

MISS MAUDE WINDELER.

MISS SYLVIA WARREN.

Mrs. Harrington reports for the Cutting Committee the following articles furnished :

"54 flannel night gowns, 48 flannel gertrudes, 6 dozen cotton night gowns, 84 crib sheets, 60 crib spreads, 12 mothers' gowns, 6 food laboratory gowns, 48 crib pillow slips, 36 crib screens, 12 screen covers, 400 napkins, 48 babies' towels, 24 hand towels, 48 glass towels, 12 dish towels, 12 roller towels, 18 nurses' sheets, 6 nurses' spreads, 2 dozen pillow cases, 2 dozen nurses' towels, 20 yards rubber sheeting."

Mrs. Crowninshield reports for the Social Service Committee :

"Monthly case meetings have been held by the Committee for the purpose of considering plans for improvement of social conditions in families (where necessary), in order that the babies may have proper care after leaving the hospital. Clothing for infants and children of all ages has been collected and used in times of emergency; any contributions of this kind will always be gratefully received and should be sent to Miss Farquhar at the Infant's Hospital."

Mrs. Richardson reports for the Entertainment Committee :

"A Cabaret was given at the Copley Plaza on May 7th, which was largely attended and most successful. The net proceeds amounted to \$2,602, \$102 of which went to the Ladies' Aid Committee for its running expenses."

Miss Baylies reports for the Junior Branch :

"During December the Junior Branch assisted in sending out the appeal for \$10,000 for the Draper ward. On Tuesday, December 21st. the Junior Branch held a sale of cake, candy and household articles, at 5 Commonwealth Avenue, from 3 to 6 o'clock. At this sale \$318 were raised, with \$300 of which it has been voted to endow a bed at the Infants' Hospital for one year. Meetings are held on the first Wednesday of every month, at 10.30 o'clock."

It is most gratifying to all the ladies working in the interest of the hospital to see what has been accomplished in the year 1915, and we all feel as if our work had been well repaid.

Respectfully submitted,

MARY KING RICHARDSON,

*Secretary.*

## WET-NURSE DIRECTORY.

---

The Wet-Nurse Directory has been under the direction of the Infants' Hospital since April 22, 1914. In June 1915 it was decided to move the Directory in order to be nearer the Hospital. A suitable house of thirteen rooms, at 63 Binney St., Boston, was engaged and renovated for this purpose. Our object in taking wet-nurses is primarily to supply healthy human milk to babies who are ill and for some reason deprived of their own mother's milk. At the same time we have an opportunity to help the young woman who has become a mother out of wedlock, or the deserted wife who is left to support herself and one, or often two children. The mother and baby are examined by the Infants' Hospital physicians, a Wasserman test is made, and no case accepted except when found to be free from any infectious or contagious disease.

While in the Directory the mothers are taught personal hygiene, the care of the babies and light house-work. They are allowed a great deal of time with their babies in order to develop the responsibility of motherhood. We do not allow a baby to be separated from its mother, and we ask the co-operation of the employer in encouraging the young woman to stand by her child.

The expense of caring for the wet-nurses at the Directory is very great, as they need a great deal of personal attention and training. They are often run down from lack of sufficient food during pregnancy, and so are often in need of a most generous and nourishing diet. After leaving the Directory each mother is assisted individually and helped to the kind of work for which she is best suited and has a liking, and in which we feel she can be happy in the future.

The charge for a wet-nurse is \$15.00 a week (which should be paid direct to the Treasurer). Of this, \$8.00 goes to the mother and \$7.00 to the Directory, so that it may be put as nearly as

possible on a self-supporting basis. Drawn breast milk may be obtained at the Directory, when advised by a physician, to tide over a critical period.

The Social worker is notified if any difficulties arise, in order that an effort may be made to set things right for the employer as well as for the wet-nurse. The Social Worker is at the Directory daily between 11 and 1 o'clock.

When a wet-nurse is no longer needed in a family she returns to the Directory where she remains pending another call, or if no longer able to nurse a baby, until a plan for her future can be made.

The Directory gives the wet-nurses' babies an opportunity in life which they could not get otherwise, and makes it possible to save the lives of many sick babies who otherwise would have died.

From January 1st, 1915 to January 1st, 1916 there have been eighty-four applicants examined, ten of whom were rejected. Seventy-four wet-nurses have been admitted to the Directory, and sixty-eight placed in families.

The Directory has co-operated with the following societies :

Boston Lying-in Hospital, Florence Crittenton League of Compassion, House of Mercy, Instructive District Nursing Association, Massachusetts Babies' Hospital, Peter Bent Brigham Hospital, State Hospital (Tewksbury), Society for Helping Destitute Mothers and Infants, Talitha Cumi Home, Avon Home (Cambridge), City Institutions, League of Catholic Women, Newton Hospital, Social Service Dept., Salvation Army.

# INFANTS' HOSPITAL

## THIRTY-FOURTH ANNUAL REPORT

JAN. 1st, 1916, to JAN. 1st, 1917

# INFANTS' HOSPITAL,

55 VAN DYKE STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-FOURTH ANNUAL REPORT.

January 1, 1916, to January 1, 1917.

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone—Brookline 5500.

A post-graduate course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Hospital.

The Hospital also controls a Directory for Wet Nurses at 63 Binney Street, Brookline. Telephone—Brookline 2930.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock, and on Wednesdays from two to three, during which hour lessons are given in home care.

## REPORT OF THE MEDICAL DIRECTOR.

---

IN January, 1916, the wards which had been lying idle for lack of funds were opened, and since early in February the Hospital has been running to its fullest capacity. The opening was marked by simple exercises, with short addresses by the President of the Directors, by President Eliot, and by Dr. John Collins Warren.

During the year (practically eleven months) we have cared for 719 babies, as compared with 396 in 1915. In spite of our enlarged facilities, we have been filled throughout the year, and have often had to turn away babies in urgent need of hospital treatment.

The larger number of patients requires a larger staff, and it is recommended that an additional assistant physician be appointed. We now have two house physicians serving for a three months' period and resident in the Hospital, so that each year we are able to give this valuable training to eight men. We are now training thirty nurses a year and twenty-eight nursemaids.

It has also been necessary to add to our permanent salaried hospital force. A trained dietitian has been secured, who has charge of the food laboratory and assists the Superintendent in the house-keeping department. We have a technician for work in the pathological laboratory and in the X-ray department. One of the most important of our many needs is a salaried pathologist and bacteriologist to relieve our medical staff, and especially the physician, of much comparatively unproductive routine labor. Such an addition to our force would increase considerably our opportunity to do valuable research.

The usual amount of graduate and post-graduate teaching has been carried out in the Hospital during the year, and in addition a course on the care of infants has been given to eighty students from Simmons College. This coming year we are to give demonstra-

tions to school extension pupils who are under the direction of the National Civic League.

The Social Service Department in the past year has done valuable work under great difficulties. There are now over one thousand active cases being followed up. To take care of the large number of cases referred, we have had a head worker on less than half time work, one worker on half time, a nurse assigned from the Hospital force for one month's service, a clerk and a variable amount of volunteer assistance. The Executive Committee, recognizing the necessity of this work and the inability of our force properly to care for it, has recently authorized the employment of an additional worker.

Your attention is again called to the activities of the Wet-Nurse Directory. Its usefulness to this community and to the whole of New England has increased. It is hoped that in the near future a fund may be established for the purpose of providing wet-nurses and breast milk at minimum rates, or free to those who can ill afford to pay.

In the past year the Ladies' Aid Committee was instrumental in raising the large sum of money which enabled us to double our capacity. They have furnished us with a greatly increased amount of clothing and other supplies, and in addition their members have given valuable service on various sub-committees organized to further the Hospital work.

To continue the activities outlined here, we need money. The high cost of living, alone, will necessitate a considerable increase in our income. A hospital must advance, or it will lose ground. To plan according to the amount of money now in sight would mean a considerable curtailment of our work. Let us hope our friends will support us even more generously in the year to come than in the past year.

GEORGE S. DERBY,  
*Medical Director.*

## REPORT OF THE PHYSICIAN-IN-CHIEF.

---

THE work of the Medical Staff at the Infants' Hospital naturally falls into three divisions. These are, first, the medical care of the babies in the wards; second, medical teaching; and third, medical research. The actual work in the wards of the hospital has been described in previous reports. The opening of an additional ward has greatly added to the amount of routine work required from the Medical Staff. Both the House Staff and the Visiting Staff have been somewhat enlarged, and are at present adequate for the actual medical care of our babies.

The problem which has chiefly interested the Medical Staff during the past year is, whether the hospital mortality can be in any way reduced. It is a well recognized fact that in all hospitals devoted to the care of infants under two years of age, the mortality is high. In this hospital, the class of cases to which belong the majority of our patients is such that we must necessarily expect many deaths. The Infants' Hospital is the final resort to which are sent many desperate cases of disease in infants, and many of our patients enter the hospital already moribund, or in a condition so desperate that very little can be done. The mortality from this class of cases is unavoidable. The Medical Staff, however, has been seriously debating the question as to whether any of our mortality is avoidable. There has been a certain number of instances in which infants have contracted a new diseased condition while in the Hospital, and occasionally this has led to a fatal ending. Some of our babies are in a condition such that they cannot bear any additional burden of disease. Infections of the upper respiratory tract, including such conditions as common colds, sore throats, bronchitis and inflammation of the middle ear, are very prevalent in infants' hospitals. It is these infections, which in robust children run a comparatively mild course,

which sometimes turn the scale against a poorly nourished baby. These catarrhal infections of the upper respiratory tract are recognized as being contagious, and wherever many infants are kept in more or less close contact, there is an excellent opportunity for transmission. The transmissibility of these diseases can be greatly lessened by a very careful nursing technic.

The Medical Staff has been occupied with a most rigorous revision of the nursing methods employed in the hospital, and feels that with the coöperation of the nursing department much progress has been made in this direction. Nevertheless, with the conditions which obtain in our wards at present, the opportunity for the transmission of this class of infections has not been reduced to a minimum. Owing to the arrangement of the wards, there are not sufficient opportunities for isolation. The Infants' Hospital wards were constructed upon the large open ward system, which is not the system best adapted to a modern Infants' Hospital. Smaller units, rooms in which only a few babies are kept, are better. The disadvantages of our ward construction can be overcome by the installation of a modern cubicle system. Most of the best infants' hospitals, both in this country and in Europe, have such a system. The cubicles are formed by glass partitions between the beds, which rise high enough from the floor to prevent the transmission of contagion from patient to patient through the air, but do not rise to the ceiling, thus permitting free circulation of air. The Medical Staff strongly urges the installation of such a cubicle system in the hospital wards, and believes that unless this is done we cannot be considered to have a model hospital, nor to have made every possible effort toward the reduction of infant mortality.

The teaching at the Infants' Hospital has become a more and more important part of the instruction in Pediatrics given in the Harvard Medical School. In particular, a large number of graduates from all parts of the country come to our wards for instruction in our methods.

The third object for which the Infants' Hospital was founded, that of giving to the world the results of research work in the diseases of infancy, has not yet been thoroughly realized. The Medical Staff,

while adequate to perform the routine work of caring for our babies, which is of course our first consideration, is unable to devote much time to research. With modern methods of diagnosis and treatment, the routine work required in the care of fifty babies is enormous, and does not leave much opportunity for scientific research. We have been doing what we can, and in particular have accumulated results which we believe will be of general value in the tuberculosis of infancy, which will shortly be published. This work is wholly of a statistical character, based on a comparison between our clinical investigations and the results of our post-mortems. If the Infants' Hospital is ever to become a great research hospital, the work must be not only clinical and statistical, but experimental. In a modern hospital, if good experimental work is to be done, it is absolutely necessary that there be connected with the hospital salaried scientific investigators, who could devote their time to the work. While I realize that this ideal cannot be immediately attained, I feel it my duty to mention salaries for scientific research workers as one of the principal needs of the Hospital to be considered in the future.

Finally, I wish to express my appreciation of two departments of the hospital, the Wet-Nurse Directory and the Social Service Department. The connection of the Wet-Nurse Directory with the hospital allows us to have a certain amount of human milk. This is the most important single life-saving measure in use in our wards. The work of the Social Service department enables the physicians in the hospital to feel that their labors are not all nullified as soon as the baby goes home, and I believe it to be fully as important in the general reduction of infant mortality, as the work performed in the hospital wards.

CHARLES HUNTER DUNN,  
*Physician-in-Chief.*

## REPORT OF THE TREASURER.

---

With the \$13,425.50 received from the appeal which was managed by the Ladies' Aid Committee in December, 1915, we have run the Hospital, with all its wards in service, since early the past year, and have been able to carry forward to our 1917 income the sum of \$1885.85. In December, last, we sent a circular letter to a limited number of persons, asking for donations for the present year, and some mention of the Hospital's needs was made in the newspapers. From this appeal, up to January 1st, we had received, as shown in this report, \$4853.00, and up to the present time \$6585.00. This amount added to the \$1885.85 gives us towards our 1917 expenses \$8470.85.

We foresee, however, that we shall need many donations to carry us through this year, which must call for a larger income than 1916. This is owing in part to the greater demands of our Social Service work in connection with the sick babies treated in the Hospital, and then, generally speaking, prices are advancing, or have advanced. We hope, therefore, that all who are interested enough to read this report will understand that an important part of its purpose is an appeal for money. This we emphasize by the envelopes enclosed, which we trust will come back to us with checks, and that no one will hesitate to send a check because they can only spare a small one.

We wish to increase the list of our annual subscribers for whatever amount each may care to contribute. The Ladies' Aid Committee have shown results in this direction, for which we are grateful. They have added 49 names of new annual subscribers, which means \$490 more income annually. Besides this we are indebted to the Ladies' Aid Committee for \$244, in donations, the past year.

Under the will of Josephine Angier Binney of Providence, who died in 1915, the sum of \$5,000 was given to Arthur G. Rotch for the benefit of the Hospital. For the time being this money is to be invested, and the income used for the running expenses of the Hospital.

NELSON S. BARTLETT,  
*Treasurer.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

DURING the year, 491 cases have been referred to the Social Service Department. These 491 new applicants, added to the 402 who were under our care at the beginning of the year, makes a total of 893 families we have kept in touch with, more or less, according to their necessities. This department has handled twice as many new cases as in the preceding year. This was due to the fact that the hospital was opened to its fullest capacity on January 20, 1916. The amount of investigating and visiting by the social workers increases according to the number of patients admitted to the ward. The follow-up work is of vital importance to the success of the department, and it is most essential that there should be sufficient workers to adequately meet this growing demand.

We believe the chief effort of social service in hospitals treating infants should be directed to prophylactic work. The education of the mother in the care of her child is the strongest weapon available in the prevention of disease, for ignorance of infant hygiene is the greatest of all causes of the high rate of infant mortality. To accomplish this end, the method we employ in the Social Service Department is to gain the confidence of the mother, and then attempt to solve through education the problems presented in each individual home.

Although our chief interest is the welfare of the babies in the homes visited, we frequently find that there is a distinct family problem. For instance, parents so destitute that they cannot afford to buy milk for their babies, are not cases for free milk alone, but for general relief. The existing conditions may be due to various causes, such as sickness, lack of employment, or alcoholism. In handling such cases we enlist the efforts of charitable organizations and of the clergyman. In this way, we cause many of our families

to be looked after by the proper authorities who would not reach them otherwise.

Most of our patients, when sent home, are still in need of medical care. The Hospital has tided them over the most serious period, but they must be discharged to make room for others who are acutely ill. Arrangements have been made which insure that every baby discharged from our wards goes back to the private physician or out-patient clinic from which he was referred, and a full account of all that has been learned and done while the patient was in the hospital is sent to the private physician or out-patient clinic. This allows our work to be carried on, and not undone, so that any benefit gained may be permanent.

It is the duty of the social workers to investigate the homes of the babies immediately after admission. Since all ward cases come to this department, there are many in which one visit is sufficient to convince us that there is no need for social investigation. In others we find all sorts of needs and either by our own work or by co-operation with other societies, we endeavor to improve the home conditions that the baby may have a reasonable chance for favorable convalescence. In some cases it is necessary to provide a temporary boarding home. When a baby is sent to us by an agency, which we know is following the social conditions of the family, this work is omitted.

After the patients are discharged to their homes the follow-up visitor instructs and supervises the mothers in the care of the babies and directs them to the family physician or to the various out-patient clinics for medical care.

As in the past, we have been requested by the Medical Staff to follow certain babies very closely. And in all cases they ask for medical reports at periods of one, seven, and nineteen months after discharge. The work has increased to such an extent that these last visits may necessarily be omitted, as we feel that it is in our early contact with the family that the greatest amount of good is done.

The hearty co-operation we receive from other agencies is most gratifying.

Much gratitude and appreciation is due Miss Anna C. R. Dunn for her faithful volunteer service. We desire to express our fullest appreciation to the ladies of the Social Service Committee for their helpful advice, in our monthly meetings, and to the Medical Staff for their interest and co-operation.

Mention should be made of the faithful service rendered by the assistant workers in this department, which has made it possible to carry on our work with the present measure of success.

MARGARET FARQUHAR,  
*Social Worker.*

## THE LADIES' AID COMMITTEE.

---

President,

MRS. J. GARDNER BRADLEY.

Vice-President.

MRS. ROBERT J. CLARK.

Secretary.

MRS. HOMER B. RICHARDSON.

Treasurer.

MRS. ALLAN FORBES,  
70 Beacon St., Boston.

---

### REPORT OF THE SECRETARY.

The Ladies' Aid Committee has held regular monthly meetings the first Tuesday in each month, which have been well attended, an average of twenty being present.

One of the most important and satisfactory pieces of work done by the Ladies' Aid was the opening of the Draper ward. This means much to the hospital, and was made possible by the proceeds of the Publicity Campaign. The ward was formally opened by speeches, followed by a tea, on Thursday, January 20, 1916.

Another good piece of work accomplished this year by the Ladies' Aid was adding forty-nine new annual subscribers for the hospital, which means a yearly income of \$490.00. Besides this, \$244.00 has been given to the hospital in donations through the Ladies' Aid Committee. We all feel that the year has been a most successful one. The Committee wishes to thank the Junior Branch for undertaking the directing and sending out of the postal cards for the monthly meetings.

Respectfully submitted,

MARY KING RICHARDSON,

*Secretary.*

## Executive Committee.

MISS SYLVIA WARREN.

MRS. E. WIGGLESWORTH, Jr., *Secretary and Treasurer.*

Miss Harrington reports for the Cutting Committee the following articles furnished :

"94 flannel night gowns, 106 flannel petticoats, 107 cotton night gowns, 220 sheets, 74 crib spreads, 214 crib pillow slips, 48 crib screens, 13 large screens, 78 baby towels, 500 diapers, 11 Mothers' gowns, 14 Laboratory gowns, 24 yards rubber sheeting, 3 dozen nurses' hand towels, 6 dozen glass towels, 3 dozen dish and roller towels, 2 dozen nurses' sheets, 3 dozen nurses' pillow slips, 12 spreads, 2 dozen huck towels."

Mrs. Crowninshield reports for the Social Service Committee :

"The monthly meetings of the Social Service Committee have been somewhat interrupted this year by the epidemic of Polyo-myelitis, it having been thought inadvisable to hold them during that time, as the visitor went into so many homes in the infected districts. Since the opening of the Draper ward in January, 1916, the work of this department has been doubled, and a new worker is to be added in the near future, as it is impossible for the present staff to give due attention to all the cases. The follow-up work is essential to insure the permanent recovery of the babies."

Mrs. Bradley reports for the Nursery Maids' Committee :

"This Committee has met at the hospital on the last Thursday of every month with the exception of a short time in the summer. It endeavors to help Miss Gregg in her efforts to train the kind of nursemaid the community calls for. This work is of the greatest importance, as one of the principal ways the Public and the Hospital come in touch with each other is through the Nursery Maids' Registry."

Mrs. Richardson reports for the Entertainment Committee :

"The only entertainment given this year was at the hospital, a tea, after the opening of the Draper ward. It was well attended, and the Junior Branch helped to make it a success."

Report of the Junior Branch :

The Junior Branch meets at the hospital on the first Wednesday of every month, from 9.30 to 11.30 A.M. At these meetings bandages, sponges and premature gowns are made, work which

heretofore has been done in the hospital by the nurses and nurse-maids, but which, since the hospital has doubled its capacity, it was impossible to continue. It has also contributed half the wages of a sewing woman to do the hospital mending, and has recently assumed the duty of sending out the monthly notices of the Ladies' Aid meetings.

MRS. ALLAN FORBES, IN ACCOUNT WITH THE LADIES' AID COMMITTEE.

## WET-NURSE DIRECTORY.

---

The Wet-Nurse Directory was started in 1910, and has been under the direction of the Infants' Hospital since April 22, 1914. In June, 1915, it was decided to move the Directory in order to be nearer the Hospital. A suitable house of thirteen rooms at 63 Binney Street, Boston, was engaged for this purpose, but a considerable sum of money has had to be expended by the Committee to put the building in proper condition.

Our object in taking wet-nurses is directly to supply healthy human milk to babies who are ill and for some reason are deprived of their own mother's milk. At the same time we have an opportunity of helping the young woman, who has become a mother out of wedlock, or a deserted wife, who has to support herself, and often one or two children.

The mother and baby are examined by an Infants' Hospital physician and a Wassermann test made, and no case is accepted unless it is found to be free from infectious diseases. During the year which this report covers, sixty new applicants were received at the Directory. Six of these were not considered, because the mothers could not leave their homes to live at the Directory. Thirty-five of the fifty-four that were examined were admitted to the Directory.

While living at the Directory the mothers are taught personal hygiene, the care of their babies, and light housework. They are allowed a great deal of time with their babies, in order to develop the responsibility of motherhood. It is a rule of the Directory, that the baby shall not be separated from its mother.

There is a staff of three workers at the Directory, one of whom is a Social Worker, who learns the history of each case, and who is at the Directory daily between eleven and one o'clock. She is notified if any difficulties arise, in order that an effort may be made to set things right for the employer as well as for the wet-nurse. There

is also a House Matron, who lives at the Directory and acts as House Mother to the wet-nurses. This year it was found necessary to add another worker, who lives at the Directory and helps in chaperoning the girls, and in assisting them in transportation when called to private families.

A Recreation Fund has been established during the year by the Ladies' Committee, to furnish amusement for the mothers. In warm weather outings are planned, and during the cold weather parties are given in the house. The girls are encouraged to take part in the work of arranging the entertainments.

The expense of caring for the wet-nurses at the Directory is very large, as they need a great deal of personal attention and training. They are frequently run down from lack of sufficient food during pregnancy, and so are often in need of a most generous and nourishing diet. On leaving the Directory each mother is assisted individually and helped to the kind of work for which she is best fitted, through the co-operation of the Society that has referred the case, or the Society for Helping Destitute Mothers and Infants. A case meeting is held by the Ladies' Committee every two weeks, to discuss the social problem of each wet-nurse as presented by the Social Worker.

The charge for a wet-nurse is \$15 a week, which is paid direct to the Treasurer. Of this, \$8 goes to the mother, and \$7 to the Directory, so that it may be put as nearly as possible on a self-supporting basis. In special cases a reduction of the charge is made to people of limited means (the sum reduced being deducted from the \$7 paid to the Directory). Drawn breast milk at \$.50 an ounce may be obtained at the Directory, when advised by a physician, to tide over a critical case. In so far as possible the usual policy of supplying the Infants' Hospital wards with two wet-nurses has been maintained.

When a wet-nurse is no longer needed in a family she returns to the Directory, where she remains pending another call, or if no longer able to nurse a baby, until a plan for her future can be made.

From January 1 to December 31, 1916, fifty-six families were supplied with wet-nurses for sick babies, and as many as thirty

families were supplied with drawn breast milk. In no case has the child of the wet-nurse been separated from its mother, thus giving the child an opportunity in life which it probably would not otherwise have had. It has been found in a majority of cases that the mothers form a lasting affection for their babies when they are kept together the first half year of life. The employer is asked to encourage the young mother to stand by her baby, and it is gratifying to say that, in most instances, they have done so with hearty co-operation.

The Directory is the only institution of its kind in New England, and it has saved the lives of many babies desperately ill. We are looking forward to the time when our finances will permit us to furnish human milk free, or at a nominal charge to deserving cases.

*To the Corporation.*

I give and bequeath to the INFANTS' HOSPITAL, a Corporation established under the laws of the Commonwealth of Massachusetts, the sum of . . . . .

# INFANTS' HOSPITAL

## THIRTY-FIFTH ANNUAL REPORT

JAN. 1st, 1917, to JAN. 1st, 1918

# INFANTS' HOSPITAL,

55 VAN DYKE STREET, BOSTON.

INCORPORATED JANUARY 19, 1881.

## THIRTY-FIFTH ANNUAL REPORT.

January 1, 1917, to January 1, 1918.

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

A post-graduate course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Hospital.

The Hospital also controls a Directory for Wet Nurses at 63 Binney Street, Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock, and on Wednesdays from two to three, during which hours lessons are given in home care.

## HISTORICAL.

---

THE Infants' Hospital was incorporated as "The West End Day Nursery Society" in January, 1881, its first officers being Henry F. Allen, President; Henry C. Haven, Treasurer; and Thomas Morgan Rotch, Secretary.

The original purpose was "the temporary care of children." The present corporate name is "Infants' Hospital," and the general purposes are the medical treatment of infants, the teaching and training of nurses and nursery maids, research work, and various allied purposes.

The original hospital buildings were at 33-37 Blossom Street, Boston. The present building is at 55 Van Dyke Street, near the Harvard Medical School.

The history of the acquisition of the new building is interesting. In 1902, shortly after the death of Thomas Morgan Rotch, Jr., son of Dr. Rotch, Doctors J. Collins Warren and Clarence J. Blake collected a fund of about \$84,000, for the purpose of erecting a hospital building as a memorial to Dr. Rotch's son. The collection of this money was entirely outside the activities of the corporation itself. The amount was not sufficient to carry out the purpose. In 1910, plans having been approved and the land purchased, it was decided to begin to build and at the same time to start a campaign for additional money to complete the undertaking. Approximately \$85,000 was raised, and when the building had been partially completed a mortgage of \$55,000 was placed. With the moneys from these two appeals and the mortgage money, the building was completed. Since so large a portion of the money was given for a Memorial, and since the Infants' Hospital was the logical institution to occupy and run such a building, it was conveyed to the corporation on condition that it should be maintained and run for hospital purposes as a memorial building.

During the campaign for funds, numerous donations were given for specific purposes, such as special equipment, the interior decoration of certain rooms, the stained glass window and the marble table in the main entrance hall, the bronze doors, and other decorative or ornamental features. The Infants' Hospital corporation was thus supplied with a modern, fully-equipped, fairly expensive home at little cost to itself, but, nevertheless, a building which can be and is economically run.

The subsequent sale of the Blossom Street property netted the corporation something over \$35,000, which might have been applied on account of the mortgage, but since this came from the property originally given to the Hospital by the Haven family it was deemed best to invest it as a Trust Fund of \$25,000, known as the "Dr. Henry Cecil Haven Trust," and another Trust fund of \$10,000, known as the "Elizabeth L. Douglas Memorial Fund." This plan was approved by Dr. Haven shortly before his death.

The income from the estate of Dr. Rotch, who died in 1914, will eventually become available for the Hospital, if, when it becomes payable, the corporation is occupying and maintaining the Memorial Building as an Infants' Hospital. At present the entire net income, amounting to between four and five thousand dollars a year, is distributed to life beneficiaries.

## REPORT OF ACTING MEDICAL DIRECTOR.

---

DURING the year 1917 the Hospital has continued to run to its full capacity. 728 babies have been admitted to the wards. It did not seem advisable to crowd the wards, therefore the number of beds has been reduced from sixty to fifty in order to secure better ventilation for each patient. The usual plan of two house physicians, serving for a period of three months, has been maintained.

The teaching of nurses and nursery maids has been carried out as usual and thirty nurses have received their diplomas. Seventy-eight nursery maids have finished the course of instruction in the Hospital and have been placed in private families to care for well babies.

The work of the Social Service Department in investigating and improving the conditions in the homes, when necessary, has been a most important factor in making the work done for the babies while in the hospital of permanent benefit to the community.

When war was declared by the United States, many of our officers who had been for some time members of the Red Cross, were suddenly called to active service in Europe. Our Medical Director, Dr. Derby, the Superintendent, Miss Gregg, and two Head Nurses, Miss Walsh and Miss Diamond, left us in May and June.

Dr. Hammond, Visiting Physician, has already entered the United States Naval Reserve force, and Dr. Percy later enlisted for Pediatric work in France. The President of the Hospital took over the work of the Medical Director. Miss Farquhar, Head Social Worker, consented to take charge of the Hospital until a new superintendent could be found. We were fortunate in obtaining her services owing to the fact that she had been for seven years superintendent of the Hospital, having resigned in 1914 to take up social work. The work of the Social Service Department was continued in spite of difficulties. Miss Dunn, a most efficient volunteer

worker, who has been connected with the Department since it was first organized, assumed the direction. In December we secured the services of Miss Alice K. Ruggles, a graduate nurse of the Massachusetts General Hospital, who, from many years experience as hospital superintendent, is well fitted for the position.

In addition to the extra-mural service which the hospital renders through its various departments, the reports of which are herewith submitted, the information derived and disseminated by the eight medical house officers, and the twenty to thirty graduate students in each year, in addition to the teaching to undergraduates in the Harvard Medical School, is a valuable contribution, as is also the original study of members of the hospital staff contributed to medical publications and in this year the text book on Pediatrics by Dr. C. Hunter Dunn which has already reached a second edition.

Dr. George S. Derby, on account of the probability of a long war service abroad, felt constrained to resign the position of Medical Director which he has so valuably and earnestly filled, but this resignation was not accepted, the Board of Directors preferring to provide such substitute service as might be necessary during his absence.

CLARENCE JOHN BLAKE,

*Acting Medical Director.*

## REPORT OF THE PHYSICIAN-IN-CHIEF.

---

THE general character of the work in the wards carried on by the Medical Staff has been described in previous reports, and has not changed during the past year. Certain changes in the Hospital routine, however, have been made necessary by the conditions imposed upon us by the war. In May, Dr. Hammond of the Visiting Staff, an officer in the Naval Medical Reserve, was called for active duty. In November Dr. Percy left us for duty in France. Owing to the scarcity of physicians competent to take part in the work of the Infants' Hospital, there is no prospect of replacing these losses, and consequently the medical Visiting Staff is reduced to half its former membership, consisting only of the Physician-in-Chief and the Associate Physician.

Meanwhile, the medical work has not diminished in amount, and although the Visiting Staff is willing to give an increased amount of time to hospital work, there is an increased pressure of outside work also brought on by the war conditions. Under these circumstances we have been obliged to consider what branches of our hospital work could best be curtailed. First in importance in the medical work of the Hospital is the actual care of the babies, those measures in diagnosis and treatment which lead to the most speedy and permanent cure of each case. Obviously no curtailment here is possible, and the corporation may rest assured that the Staff will recommend closing the wards rather than allow any lessening of the thoroughness of this part of our work. Second in importance stands the teaching of our nurses, and of the undergraduate students and physicians who come to this hospital for special instruction in the medical care of babies. This work, also, can still be carried on.

There are, however, many measures which are highly desirable for thoroughness of record, but which are not essential for the prac-

tical cure of our cases. These measures include the daily recording of observations, and routine physical and laboratory examinations made chiefly for the purpose of securing scientific thoroughness, but not essential for diagnosis and treatment. We have been obliged to curtail much of this work, and may be obliged to curtail still more in the future. The permanent scientific value of the Hospital records will suffer somewhat from this necessity of war time, but our babies will not suffer. Of course any real scientific research on the many problems presented by the work of the Hospital will be impossible under present conditions.

Up to the present time we have had no difficulty in recommending appointments to the House Staff. If in the future war conditions make it impossible to obtain House Officers, we shall be confronted by a much more serious situation than at present.

The Medical Staff has continued to study the problem of reducing the hospital mortality. The so-called cross infections, involving the upper respiratory tract, always constitute a serious factor in the mortality of an infants' hospital, and the battle against them has been one of the chief activities of the Medical Staff. Conditions have improved greatly since my last report. The installation of cubicles in the wards has proved of great value, not only in lessening the possibility of the transmission of an air-borne contagion, but also in calling the attention of the nurses to the special precautions which should be carried out with a baby placed in a cubicle, in order to prevent the transmission of contact infections. The prevalence of cross infections is much fostered by overcrowding, and the taking of the lecture room for additional ward space to be used only for babies having no sign of infection of the upper respiratory tract, has also proved a measure of great value. The Medical Staff is deeply grateful to the coöperation given by Miss Farquhar during her incumbency as superintendent in working out these problems of preventing cross infection.

As far as the specific contagious diseases are concerned, I am happy to say that during the past year there has been no time when the presence of a contagious case has compelled us to go into quar-

antine. This is a remarkably good record and is greatly to the credit of the House Staff, upon whose members fall the chief responsibility in preventing the entrance of a contagious disease.

The members of the Staff have been engaged during the past year in studying certain other questions connected with the problem of infant mortality, and have worked out several new methods of treatment, the final value of which is not yet proved, but which appear to have given results which are very promising for the future.

CHARLES HUNTER DUNN,

*Physician-in-Chief.*

## REPORT OF THE SUPERINTENDENT.

---

Number of Patients remaining in the Hospital Dec.	
31, 1916 . . . . .	46
Number of Patients admitted during the year . . .	728
Number of Patients discharged during the year . . .	730
Number of Patients remaining in the Hospital Dec.	
31, 1917 . . . . .	44
	— 774
Total number of Hospital days . . . . .	15,466
Average number daily . . . . .	42+
Average day's stay per patient . . . . .	21+
DISCHARGES :	
Relieved . . . . .	430
Unrelieved . . . . .	10
Transferred to other Hospitals . . . . .	13
Discharged against advice . . . . .	30
Died . . . . .	247
Remaining in Hospital Dec. 31, 1917 . . . . .	44
	— 774

As seen by the above statistics, the Hospital has been run to its full capacity during the year. There was a slight gain in admissions over last year, with the same number of cribs, and many days having all cribs occupied. We were obliged occasionally to refuse patients for lack of room.

Work in the X-Ray and Pathological Laboratories has increased materially, and one of our many needs is a salaried pathologist and bacteriologist.

There have been several changes in the Nursing Department. At present the Staff consists of one (1) Director, two (2) Head Nurses, one (1) Night Supervisor, one (1) Post-Graduate Nurse,

one (1) Attendant, ten (10) Pupil Nurses, and fourteen (14) Nursery Maids. The usual amount of teaching has been carried on. Twenty-six (26) Nurses and eighteen (18) Nursery Maids have completed their course. The affiliations with the New England Baptist, Faulkner, and Cooley-Dickinson Hospitals have been continued, but the New England Deaconess Hospital has been obliged to withdraw for the present because of the lack of nurses.

We wish to extend our thanks to the Physicians who have so kindly given lectures to the Nurses and for medical aid given during the illnesses.

We continue to give lectures and demonstrations to the Simmons College students.

The Social Service Department, Ladies' Aid Committee and Wet Nurse Directory have all given valuable aid during the year, as will be seen by their reports elsewhere.

ALICE K. RUGGLES,  
*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

THE work of the Social Service Department has continued throughout the year, in spite of many difficulties caused by the war. The Head Worker was obliged in the early part of the year to assume the responsibility of the Hospital when the Superintendent, who was already a member of the Red Cross, was suddenly called away. Miss Anna C. R. Dunn, our volunteer worker, who for several years has given generously of her time and added greatly to the efficiency of the Department, kindly consented to act as Head Worker. We are, therefore, greatly indebted to Miss Dunn for the greater part of this report.

From the year 1916, 483 cases were carried over. During 1917, 630 were referred to the Social Service Department, and 6 were re-opened, making a total of 1,119. Of these, 580 were closed, including those who died in the Hospital, those who died after returning home, and 68 who were "lost." Those who are counted as "lost" include babies who have been sent from outlying cities, whose parents or the doctor in charge have not replied to two or more letters of inquiry, many who have gone beyond visiting reach, leaving no address, and others who have moved, whom we know are still in the vicinity, but where every clue to their whereabouts has been followed in vain.

The work of the Department has followed the same lines. The home conditions of all ward cases are ascertained while the baby is in the Hospital, and when necessary a plan is made to insure good after-care. After discharge the baby is visited as often as is necessary, and in all cases either a visit is made or a routine report obtained at periods of one month, seven months, and nineteen months after discharge.

The organization and routine of the Department have been im-

proved during the year. As soon as the workers have sufficient knowledge of the home conditions of a patient, a perforated sheet of paper is placed with the medical chart. On one half is written whatever information is considered essential that the visiting physician should know concerning the plans for the baby's after-care. On the other half the physician writes any instructions or recommendations as to the medical care which should be continued after the patient leaves the Hospital. This includes the date on which the patient should be seen by his doctor or should report to an Out-Patient Department. This date, in addition to the instructions for the making of the milk modification, is written on the slip which is given to the mother, as it has been found that the written word has more effect than oral instruction "to report in three days." It was also found that many mothers lose the instruction slips or put them away without looking at them. Hence, a duplicate slip is given to the Social Service Department when a baby is discharged, and when possible a nurse is sent within forty-eight hours to demonstrate to the mother the exact method of preparing the food, the care of utensils, etc. These changes have added much to the efficiency of the work.

In the large majority of cases the home conditions are so good that it is possible to discharge a baby to his parents with reasonable assurance that he will receive good care. In many, however, where perhaps the mother is ill, or the father has deserted, and particularly in the case of illegitimate babies, some provision has to be made. It is here that our co-operation with other agencies is closest. But all agencies, especially those placing babies in boarding homes, are busy and overworked. Delays occur. We are obliged to ask the physicians to hold the babies longer than their medical condition requires. This may prevent the admission of a very sick baby; but we have found that discharging a patient before a proper plan is ready to be put in operation merely results in his readmission, and the realization that the work of the Hospital has gone for naught.

One of the results which we feel is obtained by our frequent visits to the homes of the babies is a better understanding of the work

of the Hospital by the parents. They are often surprised that the Hospital takes so much interest for so long a period. The letters, too, which we receive in reply to our inquiries frequently contain photographs showing fine specimens of babyhood, and words of grateful appreciation.

The monthly meetings of the Social Service Committee are stimulating. The interest shown in our work is encouraging, and the advice given on our more difficult problems is very helpful.

Certain changes have been made in the clerical department. We have also benefited by the services of Miss Bennet, a member of the Junior Ladies' Aid Committee, who gives three mornings a week to typewriting. Once more, this report cannot be closed without mention of the devoted services of the assistants in the Department.

MARGARET FARQUHAR,

*Head Social Worker.*

## REPORT OF THE TREASURER.

---

DURING the year 1917, owing to the war and the general financial situation throughout the country, no general appeal for funds was made. In June of that year we received from the estate of Mrs. George A. Draper an unrestricted legacy of \$10,000, and it was deemed best to use this to cover the deficit in our 1917 income. It is hoped that a like sum may be eventually returned from income to principal and invested as the "Draper Legacy."

Late in 1917 it was decided to make an appeal to the public for money, so that we might keep the Hospital open to its capacity during the year 1918. Mrs. J. Gardner Bradley, as Chairman of a Committee, consented to take the matter in charge. The very gratifying report of this Committee (although not a part of the activities of the year 1917) is made a part of this Annual Report, and will be found herein. For the success of this appeal the Hospital is deeply indebted to Mrs. Bradley and those who so ably assisted her. It should be borne in mind, however, by all persons interested in the welfare of the Hospital, that although (unless the unforeseen should happen) sufficient funds are in sight to take care of the 1918 running expenses, nevertheless no effort should be spared to reimburse the Hospital for the 1917 deficit, and to anticipate the current expenses of future years. Funds not needed for current expenses can and should be invested as endowment, for until we have an adequate endowment fund our Annual Appeal must continue.

CHARLES F. KELLOGG, *Auditor.*

JANUARY 24, 1918.

BOSTON, JANUARY 30, 1918.

Having been appointed an auditing committee at the Annual Meeting of the Infants' Hospital Corporation on January 31, 1917, I have had the accounts audited by Charles F. Kellogg, Public Accountant, and have examined and verified the Bonds, Stocks and Mortgages in the hands of the Treasurer, and found them correct.

WILLIAM ROTCH,

## THE LADIES' AID COMMITTEE.

---

President.

MRS. J. GARDNER BRADLEY.

Vice-President.

MRS. HOMER B. RICHARDSON.

Secretary.

MRS. JAMES JACKSON, JR.

Treasurer.

MRS. ALLAN FORBES,

70 Beacon Street.

---

### REPORT OF THE SECRETARY.

The Ladies' Aid Committee has held its meetings regularly the first Tuesday of every month. The following people spoke at the meetings: Dr. Derby, Dr. Dunn, Dr. Howell, Mr. Robert W. Seymour, Miss Farquhar and Miss Wilson. We voted to raise the dues of the active members, making all dues \$2.00. We also found it necessary to have more stringent rules for the Cutting Committee. For an entertainment in the spring, we gave some tableaux. We felt it wiser, considering the higher cost of materials, to buy them six months in advance for the coming year, which necessitated taking \$743.85 from the proceeds of the tableaux, leaving \$765.80 which was sent to the Treasurer of the Hospital. We also asked the Executive Committee of the Hospital if in the future, we could spend the money we raised in some specified way, subject to their approval, rather than have it go into the running expenses of the Hospital as heretofore, which request was granted.

In the summer, Miss Wilson, who had been with us so long, left to be married, and we sent her a present of money. The Board of Directors of the Hospital have paid us the compliment of taking five of our members on the Board and three of them on the Executive Committee, which we greatly appreciate.

Respectfully submitted,

RACHEL B. JACKSON,

*Secretary.*

## Executive Committee.

MRS. J. GARDNER BRADLEY, *President and Chairman Nursery Maids' Committee.*

MISS MARY HUNNEWELL.	MISS ELIZABETH WHITE.
MRS. G. N. HURD.	MRS. FRANK WIGGLESWORTH.

Mrs. Harrington reports for the Cutting Committee the following articles furnished :

1000 diapers, 112 night gowns, 119 flannel petticoats, 166 sheets, 70 spreads, 24 Mothers' gowns, 24 Laboratory gowns, 165 crib pillow slips, 78 crib blankets, 30 yards rubber sheeting, 120 baby towels, 48 shoulder shawls, 36 bathing blankets, 2 dozen nurses' sheets, 2 dozen nurses' pillow slips, 24 nurses' bath towels, 14 large aprons for nursery maids.

---

As acting Chairman, Mrs. Stillman reports for the Social Service Committee :

THE monthly meetings of the Committee have been held at the Hospital with fair regularity. Owing to the absence from town of some of the members, the attendance has not been very large, but those who were present have shown great interest in the work of the Social Service Department. Besides considering questions pertaining to the management of the Department, the Committee is presented with the more difficult problems arising in the work, advice is sought by the workers, and discussions are held. Reports of other cases, which it was necessary to decide between the meetings, are also given. The Committee feels that these meetings are of mutual benefit, as the workers have many knotty problems to solve, and the members are glad to be in close touch with the work that is being done.

---

Mrs. Bradley reports for the Nursery Maids' Committee :

Owing to the War, the Hospital has had three Superintendents in the last year, which has made the meetings of this committee rather irregular and it was only during the first few months that much was accomplished.

The committee has been faced with the difficult problem of high wages and it will be forced in the coming year to work out some scheme to make the girls register from the Hospital after graduation for a period of time and keep their wages somewhere within reason.

MRS. ALLAN FORBES, IN ACCOUNT WITH THE LADIES' AID COMMITTEE.

REPORT OF THE JUNIOR BRANCH OF LADIES' AID.

The Junior Branch meets at the Hospital on the first Wednesday of every month, from 2.30 to 4.30 P.M., as it is found that more members can attend at this hour. At these meetings, quilts, flannel shawls and shoe-bags are made.

The Junior Branch, also, gives an Annual Endowment for a bed and half the wages of a sewing woman who does the Hospital mending. They send out the monthly notices of the Ladies' Aid meetings.

## WET-NURSE DIRECTORY.

---

The Wet-Nurse Directory, which is still located at 63 Binney St., Boston, was started in 1910 and has been under the direction of the Infants' Hospital since April 22, 1914.

Our object in taking wet-nurses is directly to supply healthy human milk to babies who are ill and for some reason are deprived of their own mother's milk. At the same time we have an opportunity of helping the young woman, who has become a mother out of wedlock, or a deserted wife, who has to support herself, and often one or two children.

The mother and baby are examined by an Infants' Hospital physician and a Wasserman test made, and no case is accepted unless it is found to be free from infectious diseases. During the year which this report covers, sixty-two new applications were received at the Directory. Twenty-six of these were not admitted for medical reasons; making a total of thirty-six mothers with babies accepted.

While living at the Directory the mothers are taught personal hygiene, the care of their babies, and light housework. They are allowed a great deal of time with their babies, in order to develop the responsibilities of motherhood. It is a rule of the Directory, that the baby shall not be separated from its mother.

There is a staff of three workers at the Directory, one of whom is a Social Worker, who learns the history of each case, and who is at the Directory daily between eleven and one o'clock. She is notified if any difficulties arise, in order that an effort may be made to set things right for the employer as well as for the wet-nurse. There is also a House Matron, who lives at the Directory and acts as House Mother to the wet-nurses, and her assistant who helps in chaperoning the girls, and in assisting them in transportation when called to private families.

The expense of caring for the wet-nurses at the Directory is very large, as they need a great deal of personal attention and training. They are frequently run down from lack of sufficient food during pregnancy, and so are often in need of a most generous and nourishing diet. On leaving the Directory each mother is assisted individually and helped to the kind of work for which she is best fitted, through the co-operation of the Society that has referred the case, or the Society for Helping Destitute Mothers and Infants.

The charge for a wet-nurse is \$15 a week, which is paid direct to the Treasurer. Of this, \$8 goes to the mother, and \$7 to the Directory, so that it may be put as nearly as possible on a self-supporting basis. In special cases a reduction of the charge is made to people of limited means (the sum reduced being deducted from the \$7 paid to the Directory). Drawn breast milk at \$ .50 an ounce may be obtained at the Directory, when advised by a physician, to tide over a critical case. The demand for drawn breast milk has increased, during the past year, to such an extent that it was found necessary to equip a room where the milk could be obtained and properly prepared for transportation. The milk is immediately poured into sterile bottles which are packed in ice for delivery to the home of the sick baby. In so far as possible the usual policy of supplying the Infants' Hospital wards with two wet-nurses has been maintained.

When a wet-nurse is no longer needed in a family she returns to the Directory, where she remains pending another call; or if no longer able to nurse a baby, until a plan for her future can be made.

From January 1 to December 31, 1917, fifty-eight families were supplied with wet-nurses for sick babies, and as many as fifty-two families were supplied with drawn breast milk. In no case has the child of the wet-nurse been separated from its mother, thus giving the child an opportunity in life which it probably would not otherwise have had. It has been found in a majority of cases that the mothers form a lasting affection for their babies when they are kept together the first half year of life. The employer is asked to en-

courage the young mother to stand by her baby, and it is gratifying to say that, in most instances, they have done so with hearty co-operation.

The Directory is the only institution of its kind in New England, and it has saved the lives of many babies desperately ill. We are looking forward to the time when our finances will permit us to furnish human milk free, or at a nominal charge to deserving cases.

## 1918 APPEAL.

---

March 25, 1918.

Although the money is still coming in, I herewith submit a report to date of the Appeal Committee.

The receipts now amount to \$29,760.35

On January 7th an appeal was published on the front page of practically all the Boston newspapers, with the exception of the *News Bureau* and the *Boston American*, which published it inside, asking for \$25,000 for the running expenses of the Hospital for the year 1918. This was closely followed by a newspaper story, which was published in whole or in part by the newspapers, and since then the *Transcript*, *Traveler*, *Post*, *Globe*, *Advertiser*, and *Herald* have given us further write-ups, some of them with pictures. Also, the newspapers have been very generous in publishing weekly lists of the contributors since the campaign opened. This was all free publicity, with the exception of the advertisements above-mentioned.

A printed circular with a facsimile of the advertisement was then sent out to a mailing list of 5,000 names from Saturday, January 12th, to Tuesday, January 15th.

To back up these circulars twenty-five members of the Ladies' Aid Committee kindly wrote personal notes of solicitation to about 125 people, most of whom had never given to the Hospital before, and we cannot be too grateful to Mrs. Frederick S. Mead, Chairman of the Massachusetts Branch of the Woman's National Civic Federation, who wrote 350 signed letters, which were sent out with our appeals to a list of the Surgical Dressings Committee who had worked in the Draper Ward the winter before it was opened. Also, the Directors and Officers of the Hospital have been most kind in writing many personal letters, with excellent results.

The printing was done by the McGrath-Sherrill Press at cost, and the envelopes were supplied by the John Carter Co. at cost.

The paper on which the circulars were printed was given by the Geo. W. Wheelwright Paper Co. Miss M. O. Porter rendered valuable services in connection with the revision of lists and mailing. The total cost of the campaign was \$541.23, an itemized statement of which follows. Owing to the kindness of Mr. Thomas B. Gannett this entire cost has been underwritten so that every penny received has gone directly to the Hospital.

I want to extend my thanks to my Committee and to everyone who has helped make this campaign the success it has been.

MABEL WARREN BRADLEY,

*Chairman.*

# INFANTS' HOSPITAL

## THIRTY-SIXTH ANNUAL REPORT

JAN. 1st, 1918, to JAN. 1st, 1919

# INFANTS' HOSPITAL,

55 VAN DYKE STREET, BOSTON.

INCORPORATED JANUARY 19, 1881

THIRTY-SIXTH ANNUAL REPORT.

January 1, 1918, to January 1, 1919.

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

A post-graduate course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Hospital.

The Hospital also controls a Directory for Wet Nurses at 63 Binney Street, Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock.

## REPORT OF THE MEDICAL DIRECTOR.

---

THE number of patients treated in the Hospital during the year 1918 was somewhat larger than that in 1917. It would have been considerably larger if it had not been for the epidemic of influenza. It was impossible to avoid the taking of a certain number of cases of influenza into the Hospital. It did not seem fair, however, to expose babies without influenza to infection with it; so no babies, except those seriously ill, were admitted at this time, all babies coming simply for regulation of their diet being excluded. This, of course, materially cut down the number of patients admitted.

It has been very difficult to carry on the medical work of the Hospital during the past year, because of the absence of so many physicians on account of the war. Doctors Dunn and Howell have carried the work on alone, sacrificing themselves in every way in order that the work of the Hospital might not suffer. Their work was further hampered, except for short periods of time, by the lack of competent house-officers. At no time during the year was the House Staff complete, the work being carried on in large part by students in the fourth class of the Harvard Medical School. Furthermore, the illness of many of the nurses during the influenza epidemic made the carrying on of the work still more difficult. Nevertheless, the medical work of the Hospital has been very well done under the circumstances. The patients have been well taken care of, and have not suffered in any way as the result of the limitations in the Staff. Medical students have been taught as usual. Very few graduates, however, have come to the Hospital during the past year. The part of the medical work which has suffered has been the scientific side, as it has been impossible to carry on any continued investigations. The records of the Hospital have been kept

better, however, during the past six months than ever before, because a full-time stenographer has been put on them. They have been brought up to date, and kept up. It is probable that most of the physicians, who are now in the service in the army and navy, will return during the next six months. It is hoped that it will then be possible to increase the number of the Staff so that it will be able not only to take proper care of the babies, but also to resume original investigations.

The pathological work of the Hospital has not been what it should have been in the past, owing to the lack of a pathologist and proper assistance. Dr. S. Burt Wolback, Associate Professor of Bacteriology and Pathology at the Harvard Medical School, has recently been appointed pathologist to the Hospital, and provision made for assistance to him in his work. This side of the Hospital's work will, therefore, without question be better taken care of than in the past.

The Hospital is very fortunate in having the services of Miss Alice K. Ruggles as Superintendent. Nothing but praise can be said of her management of the Institution. She has sacrificed herself in every way for it. Among other things, she personally, without assistance, except for the aid at times of a nursery maid, took care night and day of sixteen of the nurses and nursery maids ill with influenza, at the same time superintending the work of the Hospital.

The Training Schools for Nurses and Nursery Maids have been continued. Several new affiliations with other hospitals have been entered into by the Training School for Nurses. Miss Susan Durkee, a graduate of the Boston Floating Hospital, has been in charge of the teaching of both nurses and nursery maids during the past few months.

The work of the Social Service Department, now in charge of Miss Anna C. R. Dunn, who gives her services, has, in spite of the war, not been curtailed. The work done by this Department is most thorough and most valuable. It follows up the babies after they leave the Hospital, sees that they are in proper hands, and that the home conditions are such that the babies can have the proper care.

The expenses of the Hospital have increased during the year, because of the general increase in the price of all supplies and in wages. It is probable, unfortunately, that they will increase further during the coming year. Expensive, but absolutely necessary, repairs have been made to the facade. New bath rooms have been installed, each of which saves at least an hour a day in the work of the ward with which it is connected. The changes in these rooms were paid for by a special gift to the Hospital. The admission of private patients has been given up, because of insufficient accommodations for them and an insufficient working force.

A new contract has been entered into between the Hospital and the Directory for Wet Nurses. Under the present contract, the Hospital receives a considerable amount of breast milk daily for its patients. This breast milk is of the greatest importance to the Hospital—so important that it would not be justifiable for the Hospital to take babies unless it had it.

The results obtained in the Hospital during the year have been satisfactory, when the difficulties under which the work was carried on are taken into consideration. There is every reason to expect a higher standard and greater accomplishment in the ensuing year.

JOHN LOVETT MORSE,  
*Medical Director.*

## REPORT OF THE PHYSICIAN-IN-CHIEF.

---

THERE has been little change in the character of the medical work at the Infants' Hospital during the past year. Our very small Staff has prevented us from doing much more than keeping up the routine of caring for the actual medical needs of our babies, and we have been obliged to devote our attention exclusively to saving the lives of as many babies as possible and sending them out in as good condition as possible. At times the work seems very discouraging, because so many babies do not come in to us until their condition is practically hopeless. At other times we are encouraged by cases which, seemingly hopeless on admission, are apparently saved by the resources of this hospital. The use of the Hot Room, kept at 80 degrees, has proved a very valuable weapon during the past year, and we have come to use it more and more in the treatment of a certain class of cases. I should say that, next to the human milk which we get from the Wet-nurse Directory, the Hot Room is the most important single life-saving measure at our disposal.

Early in October the prevailing epidemic of influenza struck the Hospital heavily, and a large proportion of our nursing force were attacked. Fortunately there were no deaths in the Hospital from this disease among the Hospital personnel. This good result has appeared to me to be mainly due to the promptness with which the executive officers of the Hospital recognized the cases and placed them under medical care, and also to the good nursing which they received. Both in the first outbreak of the epidemic, late in September and early in October, and again in December, we had a great many cases of influenza and pneumonia in the wards. Although we used every available measure to prevent the spread

of the disease within the Hospital wards, I did not feel justified under the conditions then obtaining in exposing ordinary feeding cases, and cases which were not very sick, but which had only come to us for diagnosis, to the risk of possible infection. For this reason I advised the temporary closing of the wards to the admission of all cases except influenza cases and those in which the need of hospital care was sufficiently great to outweigh the possible risk of acquiring influenza in the Hospital. I am glad to report that very few cases contracted influenza in the Hospital wards, and of these only two were fatal. The mortality of the cases in infants did not appear to be any higher than our average mortality from broncho-pneumonia in other years.

The principal work of the Staff during the past year has been a continued study of the causes of the Hospital mortality, with a view to devising every possible means of lessening our death rate. I have spoken in previous reports of the role which contagious infections play in the mortality of an Infants' Hospital. During the past year there has been a great improvement in the technique of our nursing; and while I cannot speak statistically, it is the impression of the Medical Staff that the prevalence of cross infection has been greatly diminished. I wish to take this opportunity of expressing my appreciation of the co-operation which I have received from the executive officers of the Hospital in carrying out various improvements in our methods.

There is, however, still more to be done if we are to realize an ideal condition in which the danger of cross infection is reduced to an absolute minimum. To do this we shall need to carry out in our wards a strict aseptic nursing technique, such as is used in the best contagious hospitals. Such a technique is already in use with cases which are known to be sources of cross infection. In an Infants' Hospital, however, every baby is a possible source of infection, and this strict nursing technique should be employed throughout the wards. This will require a larger nursing force than we have at present; in fact, a larger force than can be housed in the present building. The ideal condition which I have in mind

for the future is to have a separate building for the housing of all our nursing force, in order that we may use this entire building for the care of babies. This will enable us to have fully adequate resources of isolation, and to have a nursing force large enough to carry out the technique which I have in mind. Certain criticisms have been made as to the plan of the Memorial Building as adapted to the care of infants. Speaking for the Medical Staff, I am of the opinion that the faults designated by these criticisms are comparatively easily remediable. The plan of the top floor, now used by the nursing force, is admirably adapted to the peculiar requirements of an Infants' Hospital. Admirable provisions could there be made both for the isolation of infectious cases and for open-air treatment. I believe that if we could move out our nursing force and use the present building entirely for the care of babies most of the apparent faults of this building would disappear, and it could easily be made an ideal building for its purpose.

CHARLES HUNTER DUNN,

*Physician-in-Chief.*

## REPORT OF THE SUPERINTENDENT.

Died . . . . .	299	
Remaining in the Hospital Dec. 31, 1918 . . . . .	44	
		779

During the year, there has been a slight increase in admissions, which would have been greatly increased if we had not been obliged, during the influenza epidemic, to limit the number of babies simply requiring regulation of feeding to those desperately ill.

We have run at full capacity most of the year, with the exception of July and August, and have been obliged, occasionally, to refuse patients for lack of room.

The affiliations, with the different Hospital Training Schools, continue. Last year the Deaconess Hospital was obliged to withdraw

their affiliation, temporarily, but their place was filled early in the year by the Cottage Hospital of Woodsville, N. H. One nurse was withdrawn from the Baptist Hospital, leaving us two nurses affiliating there, but we took on a new affiliation with the Chester Hospital of Cambridge, Mass. We now have eleven affiliating nurses and fourteen nursery maids. One head nurse resigned for overseas duty. Her place was filled by a post-graduate, then taking the course here, and she has continued to remain. The training-school curriculum was very much interrupted during the last of September and the greater part of October by the influenza epidemic. Since then the schedule has been carried out.

The Ladies' Aid Committee has furnished the usual supply of clothing, supplemented materially by furnishing new hair mattresses for all the infants' beds; supplying the nurses with current literature and moving two lavatories from the bathing rooms to the wards and furnishing the necessary fixtures.

We have also had the gift for repairs and changes in the bathing rooms, making them more modern and efficient. One of the Staff was given \$150.00 to use as needed, which was spent for X-Ray and other apparatus.

We extend our thanks to the physicians who have so kindly given lectures to the nurses, and for medical aid when ill, and to other friends for donations which were greatly appreciated.

Respectfully submitted,

ALICE KIMBALL RUGGLES,

*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

THE organization of the Social Service Department has been described in previous reports. The work has increased during the year. From 1917, 539 cases were carried over. During 1918, 668 were referred to the Department, and 12 reopened, making a total of 1219. Of these 634 were closed, these including also the babies who died in the Hospital, babies who died after discharge, and those of whom we had lost all trace. Owing to a change in the method of keeping the statistics, the figures showing the work done are for the last two-thirds of the year only. The interviews in the Hospital numbered 335. Under "visits" are included, besides visits to the families, those to friends or agencies interested in our patients, and reports from the latter concerning the medical condition of the babies. These numbered 1324. We have had besides 741 communications with other agencies, either by letter or telephone. Our visitors have covered districts as far distant as Revere, Woburn, and Quincy.

Perhaps the greatest addition to the efficiency of our organization has been in the routine of discharge. Heretofore there have been instances where a baby who was ready to leave the Hospital has been let go before the plans of the Social Service Department for its after care were complete. The mother, on being told that her baby was well enough to go home, has felt that she must take it immediately, even though not in circumstances where she could give it the proper care. Now this Department is notified first when a baby is ready to go; and if there is any reason why we feel that it would be wiser to delay sending it out, we so indicate. The Social Service Department then becomes responsible for seeing that the baby leaves as soon as possible. In all cases where another

agency is already in charge of the family situation, or has undertaken the responsibility of the baby, the notification goes through our office.

A study of the cases which do not progress favorably after leaving the Hospital suggests that the most critical period is that immediately following their discharge. The need of Hospital beds for acute and severe cases is so great that in order to do the greatest good the Hospital must send out babies who, while not requiring Hospital treatment, need more careful supervision than we are able to give. We look forward to the possibility of a Convalescent Home for such babies. This, too, would have been very useful during the influenza epidemic, when often the parents have been ill also, and there has been literally no one to care for the baby. It is difficult to place a baby in a good boarding home for temporary care at short notice.

Our Staff has been decreased by one half-time paid worker. The building up of a corps of volunteers has not been as successful as we had hoped, owing to the fact that so many people are engaged in work connected with the war. But with the lessening of these demands we hope to get more volunteer help.

During the first wave of the influenza epidemic, this Department was asked to assist in the follow-up work of the Mayor's Emergency Committee by lending a worker. For a part of the time, for about three weeks, your Head Worker was engaged upon this.

The meetings of the Case Committee were very irregular during the year. Recently this Committee has been reorganized, and considers, besides the difficulties of our work, the policies of the Department. The Executive Officers and House Staff are now included on this Committee.

I regret to say that Miss Bennett, who gave generously of her time in the Clerical Department, has now left us.

We have asked the Ladies' Aid Committee for gifts of clothing, as we are frequently asked to supply clothing for a baby going home, and sometimes to supplement for other children in a family.

Too much emphasis cannot be placed upon the help and interest

of the Medical Staff and Superintendent, nor upon the devotion and enthusiasm of the assistants, and the pupil nurses, who receive a month's training in the Department.

ANNA C. R. DUNN,

*Head Worker.*

Correct.

CHARLES F. KELLOGG, Auditor.

JANUARY 23, 1919.

BOSTON, JANUARY 31, 1919.

Having been appointed an auditing committee at the Annual Meeting of the Infants' Hospital Corporation on January 31, 1918, I have had the accounts audited by Charles F. Kellogg, Public Accountant, and have examined and verified the Bonds, Stocks, and Mortgages in the hands of the Treasurer, and found them correct.

WILLIAM ROTCH,  
Auditing Committee.

## REPORT OF THE TREASURER.

---

DURING the year 1918, owing to general conditions, the cost of operation of the Hospital was considerably increased, so that our total expenses, including interest on the mortgage, were \$46,818.50.

The 1918 appeal was completely successful, so that from the proceeds of this appeal, together with the other sources of income and a very timely contribution from the Permanent Charity Fund (Boston Safe Deposit and Trust Company, Trustee), we were able to pay our expenses for the year, and from the proceeds of a legacy from Mrs. Caroline L. Weld and money collected from maturing securities we were able to pay off the debt of \$5,000 incurred with the National Union Bank and also make a payment of \$10,000 on account of our mortgage with the Suffolk Savings Bank. This leaves the mortgage at \$45,000 ; and I wish to urge on the friends of the Hospital the importance of getting this mortgage entirely paid within the near future. The rates of interest on mortgages of hospitals and charitable organizations are necessarily high, so that it is not financially wise to invest our funds in securities netting 5% and 5½% and pay 6% interest on a mortgage. We hope very much that some friends and patrons of the Hospital will come forward and relieve the Hospital of a portion or all of this burden.

As there seems to be little prospect of lower expenses for the year 1919, it has been considered necessary by the management to obtain funds in advance to provide for the expenses of the year, and as this report is being written we are in the middle of what promises to be a successful campaign for \$35,000, which, together with our invested funds and other sources of income, ought to be sufficient to care for our needs this year.

It is to be regretted, however, that it is necessary every year to depend upon the public to meet such a large proportion of our expenses. At some time an effort should be made to increase our invested funds in order to form an endowment which will more nearly take care of the needs of the Hospital.

PHILIP STOCKTON,

*Treasurer.*

Vice-President.

MRS. HOMER B. RICHARDSON.

Secretary.

MRS. JAMES JACKSON, JR.

Treasurer.

MRS. ALLAN FORBES.

70 Beacon Street.

---

### REPORT OF THE SECRETARY.

The Ladies' Aid Committee held their regular monthly meetings on the first Tuesday of the month from October to May, with the same officers of the previous year. Owing to the high cost and the amount of the materials and supplies necessary for the Hospital now, the Ladies' Aid Committee have abandoned their policy of providing them, and their money will be spent hereafter in specific gifts. The gifts of the year were the fitting of the wards with crib mattresses and rubber coverings; some much-needed alterations in the plumbing, consisting of changing the wash-basins from the wash-room into the wards and providing them with special fixtures; and magazines for the nurses. Mrs. Edward Farnham Greene very kindly donated a desk set for the nurses' room.

The Committee also helped in the 1918 appeal for funds, by writing one hundred twenty-five personal notes.

Dr. Dnnn and Dr. Howell spoke at two of the meetings. There was nothing further than this but the work of the usual committees, the reports of which follow.

Respectfully submitted,

RACHEL B. JACKSON,

*Secretary.*

	MISS ELIZABETH WHITE.

MRS. FRANK WIGGLESWORTH.

Mrs. Harrington reports for the Cutting Committee the following articles furnished :

32 medical crib blankets, 12 surgical crib blankets, 120 shoulder shawls, 165 medical crib sheets, 60 surgical crib sheets, 138 crib spreads, 120 flannel night gowns, 120 gertrudes, 12 large bed screens, 72 crib screens, 60 cotton night gowns, 120 crib pillow cases, 120 babies' face towels, 180 crib sheets, 80 large pillow slips, 60 bath blankets.

Mrs. Homans reports for the Social Service Workers :

The Committee was reorganized in the latter part of the year. The meetings had been irregularly attended, owing largely to the continued absence from town of some of its members. At present the meetings are held twice a month. The policies of the Social Service Department are given consideration, as well as the more difficult situations which arise in the work. These meetings are attended also by some of the officers of the Hospital, and are to be still further enlarged.

Mrs. Bradley reports for the Nursery Maids' Committee :

The Committee held monthly meetings during the winter and considered the usual number of special cases.

On May 2d, a demonstration of the work of the Nurses and Nursery Maids was held at the Hospital, which was attended by the Committee, some superintendents of other hospitals and members of the Ladies' Aid Committee. Immediately after, tea was served with the assistance of the Junior Branch, and in the evening the Nursery Maids had a party, for which the Committee provided ice cream and cake.

MRS. ALLAN FORBES, IN ACCOUNT WITH THE LADIES' AID COMMITTEE.

## REPORT OF THE JUNIOR BRANCH OF LADIES' AID.

---

The Junior Branch held six meetings at the Infants' Hospital on the first Wednesdays of the months, with an average attendance of six members. At these meetings, the members made baby garments.

There were thirty-one members, and we raised \$421.00, \$300.00 of which went for the endowment of the Junior bed. Shoe bags, for the nurses' rooms, were made by a member and given to the Hospital.

The officers for the coming year are—

SARAH SHERBURNE, *Chairman.*

AGNES CUMNOCK, *Secretary and Treasurer.*

## WET-NURSE DIRECTORY.

1918.

---

THE Wet-Nurse Directory, at 63 Binney Street, was started in 1910, and has been under the direction of the Infants' Hospital since 1914.

The object of the Directory is to supply mother's milk to babies who are ill or who for some reason are deprived of their own mother's milk. It also affords an opportunity for unmarried or deserted mothers to keep their babies with them and earn good wages, one of the rules being that the baby shall not be separated from its mother.

The mother and baby are examined by an Infants' Hospital physician, and no case is accepted unless it is found to be free from infectious and contagious diseases. During the year there were forty-nine applications — thirty were accepted — the nineteen refused were mostly for medical reasons.

The following changes were made during the year in the staff of workers: Our social worker and matron both resigned, and the committee decided to combine the two positions. Miss Hartwell was engaged as superintendent, and to our former assistant matron, Mrs. Connors, we gave the position of housekeeper.

One radical change was made in the middle of the year, and so far has met with success. Formerly the girls while waiting in the Directory for cases received no wages. Now, after a week, they receive the same wage as if they were on a case — eight dollars a week; and they supply us with drawn breast milk, which enables us to fill small orders for breast milk and have varying amounts to be given away. All that is not ordered or sold by a certain time each day is sent over to the Infants' Hospital, or given to any hospital which wishes to send for it. In that way we have increased materially our opportunity for helping sick babies, and the girls feel that their time and milk is not wasted while waiting for a call to go on a case.

With the exception of reducing the price of drawn breast milk from \$.50 to \$.25 an ounce, our prices remain the same. The

charge for a wet-nurse is \$15 per week. Of this amount, which is paid to the Treasurer, the wet-nurse gets \$8 and the Directory \$7. If the wet-nurse is not taken to the employer's home, but kept at the Directory, and her milk drawn, the charge is \$30 per week. Drawn breast milk at \$.25 an ounce may be obtained also at the Directory. A room there is especially equipped as a milk-room, where the milk is drawn, and poured immediately into sterile bottles and iced. The Infants' Hospital is supplied with from 18 to 21 ounces a day.

The expenses of the Directory are necessarily large, owing to the need of so much personal attention and training for the girls and the necessity of much nourishing food.

When a wet-nurse is no longer able to nurse a baby, we help her to find other work, usually through the Society from which she came to us.

From January 1 to December 31, 1918, seventy-one families were supplied with wet-nurses, and forty-eight sick babies were supplied with drawn breast milk. The average time a family kept a wet-nurse was five months. During the last five months we have sold one thousand five hundred and forty-nine ounces of breast milk, and given away to hospitals one thousand two hundred and twenty-three ounces, undoubtedly thereby saving a large number of babies' lives. We hope another year to be able to increase our work in that way to an even greater extent.

# INFANTS' HOSPITAL

## Thirty-Seventh Annual Report

January 1, 1919 to January 1, 1920

# INFANTS' HOSPITAL

55 VAN DYKE STREET, BOSTON

---

INCORPORATED JANUARY 19, 1881

## Thirty-Seventh Annual Report

January 1, 1919, to January 1, 1920

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

An affiliated course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Y. W. C. A., 14 Appleton St., Boston.

The Hospital also controls a Directory for Wet Nurses at 63 Binney St., Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from ten to twelve o'clock.

# OFFICERS OF THE INFANTS' HOSPITAL FOR 1920.

## REPORT OF THE MEDICAL DIRECTOR.

---

THE number of patients treated, the average daily number of patients, the average days' stay per patient, and the total number of Hospital days was almost exactly the same in 1919 as in 1918. The death rate was, however, 9% lower. The same difficulty in carrying on the medical work of the Hospital was experienced during the first six months of the year as in 1918, because of the absence of so many physicians on account of the war. There was also the same difficulty in obtaining competent house-officers during the first half of the year. Since this time, however, the Medical Staff has been complete and the grade of house-officers as good or better than before the war.

The standard of the medical care of the patients is very high. The Medical Staff is, however, not large enough. The Staff is over-worked. The physicians on the Staff have to do so much routine work that they have no time to devote to original investigations and research. This one of the three main functions of a modern Infants' Hospital, namely, care of patients, instruction of physicians, nurses and nursery-maids, and research, is, therefore, not being carried on as it should be. The Staff should be enlarged by the addition of several younger men, thus giving everyone, especially the more experienced physicians, time to undertake investigations to advance our knowledge of the diseases of infancy and their treatment. In order to do this they should also have the aid of specially trained technicians and assistants, as their function is to direct investigations and research rather than to carry out the details of the work themselves. Such specially trained assistants, however, demand and deserve good salaries. Money is urgently needed for this purpose.

The Hospital is doing a great work in the instruction of students and physicians. Students of the third and fourth classes of the Harvard Medical School are taught in the Hospital almost daily and more than 100 physicians attended the clinics at the

Hospital during the year. These graduates came from all parts of the United States and from such distant parts of the world as Australia, South America and China. The importance of this part of the Hospital's work cannot be over-estimated. Through its affiliations with the training schools of other hospitals, the influence of the Hospital is also widely extended. The training which the nursery-maids receive is also of great value to the public, but is, I fear, hardly appreciated as it should be.

Miss Anna C. R. Dunn, who, at a great personal sacrifice, took charge of the Social Service Department during the war, has felt obliged to give it up now that the emergency is over, and Miss Carolyn A. Brown is in charge. The Hospital is very fortunate, however, in that Miss Dunn continues in the department as a volunteer worker. The expenses of the Hospital will, however, be materially increased by the change, as Miss Dunn most generously gave her services.

The Hospital has been most carefully and economically administered during the year under the able direction of Miss Alice K. Ruggles, the superintendent. The expenses have, nevertheless, increased, because of the general increase in the price of all supplies and in wages. There is no probability that these will decrease during the coming year. In fact, they are almost certain to increase. In order to keep down expenses, many necessary repairs and improvements have been postponed. Such repairs and improvements cannot be postponed indefinitely, however, and must be carried out in the near future.

The Hospital has ceased to register and place nursery-maids. They are now given diplomas after finishing their course of training and are registered at the Young Women's Christian Association.

The arrangement entered into with the Directory for Wet Nurses, in 1917 has proved most satisfactory for the Hospital. The Directory has not only furnished the daily amount of breast milk which it promised, but has often given much more. It would be impossible to carry on the work of the Hospital satisfactorily without this supply.

The work of the Hospital would be much facilitated and much better care could be taken of the patients if some provision could be made for the housing of the nurses and nursery-maids outside of the Hospital and the rooms which they occupy used for patients. Such a change would, however, be very expensive and is probably not feasible at present.

Finally, the standard of the medical work of the Hospital is high and the Hospital is carefully and economically administered. To keep up the present standard, however, more money will be required than in the past, because of the increased cost of everything, except the services of the Medical Staff. If more money is not provided, the standard must deteriorate. It cannot be materially improved unless much more money is available than at present.

JOHN LOVETT MORSE,  
*Medical Director.*

## REPORT OF THE PHYSICIAN-IN-CHIEF.

---

THE medical work of the Infants' Hospital can be divided into three classes. These in the order of their importance are — first, humanitarian work, the actual medical care of our babies; second, the teaching of the medical students and graduate physicians; third, scientific research.

In preparing my report of the work of the past year, I have had in mind chiefly an analysis of this work with a view to determining how well we have succeeded and what are our shortcomings.

Insofar as the second class of work is concerned, — the teaching of medical students and graduate physicians, the Hospital building and clinical material afford ample provision for good teaching and we do not need to ask the corporation for any increased facilities for this purpose. The humanitarian side of our work, however, stands first in importance, and this has been the subject of many anxious conferences among the members of the Medical Staff. The cases which come to the Infants' Hospital may be divided roughly into three classes. In the first class are cases of acute disease which come to us because they can be better cared for in the Hospital than at home and because the Infants' Hospital is the institution which has the greatest number of beds for the care of such cases in children under two years of age. The facilities of the Hospital are fully adequate for the best care of this type of case, and for the most part these patients do well. I cannot see that the fatalities in this group can be prevented by any improvement in our methods. A second group of cases come to us for diagnosis. These are usually obscure cases, often of rare conditions, which require the use of the facilities of a modern hospital before the problems presented can be solved. In this part of our work also the facilities afforded by the Infants' Hospital appear to be fully adequate. The third group comprises chronic cases, usually of functional disturbance, which

represent the picked failures coming from a large territory. The Infants' Hospital is the only large Hospital of its kind in New England, therefore desperate cases which have failed to do well under ordinary medical care come to us, not only from the various clinics of the city but from all over New England. There are more requests for the admission of such cases than we can meet, and their efficient treatment demands especial care. The greater part of our mortality rate comes from the cases of this description. While our comparatively high mortality is mainly due to the desperate nature of the cases sent to us, the Staff has always been studying this mortality with a view to its possible reduction.

We have at our disposal every known means for the medical treatment of this class of cases. I have, however, referred in former reports to the prevalence in an infants' hospital of infections of the upper respiratory tract and their effect upon the hospital mortality, when they occur in babies belonging to this third class. The prevalence of these infections and their effect on mortality seems to be an accepted fact in most infants' hospitals, but we have always felt it our duty to inquire whether it is not preventable. We have been firmly convinced that these infections are transmissible. The cubicles have done a great deal in lessening the incidence of these infections, but they are not sufficient in themselves wholly to relieve the situation. The Medical Staff feels that the Hospital has done excellent work as shown among other things by the fact that our mortality rate is less than that of the majority of infants' hospitals. The Staff also appreciates, however, that it would be unworthy of its office if it did not keep in mind the possibility of realizing the greatest efficiency and the highest ideals.

Certain methods are being used in a few institutions where they have become firmly established. In our opinion, if these methods can be applied in the Infants' Hospital, they will solve the difficulty of transmissible infections. These methods require:

- (a) More room per baby.
- (b) Separation of cases into groups by disease.

- (c) Separation of infected from uninfected.
- (d) A stringent aseptic nursing technic.

The first three of these requirements can only be met by increasing the space in the Hospital building devoted to the actual care of babies. The fourth requirement can only be met by a larger nursing force than we have at present. I have heard statements to the effect that the plan of this building is not suited to the purposes of an infants' hospital. The members of the Staff who work here every day do not believe that this statement is true, but believe that the building is well suited to its purpose and that it could be made ideal for its purpose in meeting the requirements outlined above. The third floor of the Hospital building has remarkable advantages in that it contains five suites which could be used as units for the isolation of disease groups, each having lavatory facilities. The Staff believes that with our present wards and the third floor in addition the Hospital building could be made admirably adapted to the purpose for which it was built. This would require new quarters for the nursing force outside the Hospital building.

The third division of the work of the Hospital, that of scientific research, has been impossible of realization under the conditions which confront the Medical Staff. Research work has for its end the discovery of new methods of carrying on the purely humanitarian work. The intention of the founder of this Hospital, as understood by the Medical Staff, was that this institution should lead not only in the actual care of patients, but also that it should be productive of additions to our knowledge of the diseases and of the care of infants, and so add another service to the community. I have referred in former reports to the need of salaried technical workers but am willing to regard this as a remote ideal impossible of realization at present. Some research work can be done by the Staff under proper conditions. One obstacle has been that the Medical Staff was so small that all its time was taken up by routine work. The return of Dr. Hammond from war service has already been a help in this connection, and there is now the possibility of further additions to the Medical Staff.

What we need most, however, is greater laboratory facilities. The present laboratory is adequate only for the merest routine. Much more room is needed if research work of value is to be carried on by the Hospital Staff. This need also can be met in the same way as the requirement for more ward space and a greater nursing force, namely, the housing of our nursing force outside the Hospital. While I realize that this may not be possible at present, I feel it my duty to call seriously to the attention of the corporation and directors the desirability of this measure in connection with the medical work of the institution.

CHARLES HUNTER DUNN,

*Physician-in-Chief.*

## REPORT OF THE SUPERINTENDENT.

Number of patients remaining in the Hospital, Dec.		
31, 1918 . . . . .	46	
Number of patients admitted during the year 1919 .	737	
Number of patients discharged during the year 1919		749
Number of patients remaining in the Hospital, Dec.		
31, 1919 . . . . .		34
<hr/>		
Total . . . . .	783	783
Total number of Hospital days . . . . .	15,124	
Average number daily . . . . .	41+	
Average days' stay a patient . . . . .	20+	
DISCHARGES:		
Relieved . . . . .		439
Unrelieved . . . . .		13
Transferred to other Hospitals . . . . .		14
Discharged on parents' own responsibility or against advice . . . . .		51
Died . . . . .		232
Remaining in the Hospital, Dec. 31, 1919 . .		34
<hr/>		
Total . . . . .		783

The statistics, under the same conditions, show an increase of two patients over last year, yet the number of patients daily has remained more evenly and we have not been obliged to refuse cases because of the over-crowded condition of the wards, except in the premature department.

There have been several changes in the executive nursing force because of marriage or accepting other positions.

Changes in the Social Service Department have been made, so we are now on a pre-war basis with Miss Carolyn A. Brown, a

former assistant worker at the Children's Hospital, as head worker in charge, with volunteer workers under her.

One hospital, because of lack of applicants, was obliged to withdraw its affiliation, for a time, at least, but we were very fortunate in having another apply at once to fill the place, besides one other which had made arrangements for an affiliation, so, at present, the nursing force is complete with no room, as conditions are now, for more.

Changes have been made in the Nursery Maids' Department, so that, as soon as the course is finished here, the diploma is given and they are sent to the Y. W. C. A., where they are registered and placed by them.

We have had several gifts to be used as desired in the different departments and an X-Ray stand and bowl from Mrs. William Lindsey, which have been greatly appreciated.

The Ladies' Aid Committee have continued their good work in furnishing supplies, also, giving a piano to the Hospital and current magazines to the Nurses' Library.

The H. C. L. has shown its results in every department here, as elsewhere in the country, but we have tried to curtail in every way, not detrimental to our work.

We extend our thanks to all our friends who have contributed to the Hospital and Training School and especially to the physicians who have given their time for lectures and aid to those ill.

Respectfully submitted,

ALICE KIMBALL RUGGLES,  
*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT.

---

THE department, as now organized, consists of one paid worker, one full time trained worker, a pupil nurse from the training school and a part time stenographer.

As in the years past, the aim of the department has been two-fold: First, to ascertain home conditions before the return of the baby to its home with the view of making other plans for after care in case the home proves unsuitable. In addition we try to plan for supervision at home and in Out Patient Departments or Baby Hygiene clinics for all who are not under the care of a private physician.

Second, to follow such babies as have perfectly adequate care at home and to bring back reports as to their progress, favorable or unfavorable, after discharge.

Both plans necessitate a visit to the home, if within a reasonable radius of the city, as soon as practicable after the admission of the baby to the Hospital, and conferences with the parents to determine the type of after care required.

It is obvious that our limited Staff cannot give close personal supervision to babies needing it, over an extended period of time. To accomplish this we depend upon the Baby Hygiene nurses in the city who are always interested to hear about our babies if they do not already know them, and to carry out our suggestions.

The war has given increased impetus to interests in Child Welfare work, and as a result many of the outlying cities and towns have provided nurses for this work. A list of such towns with the name and address of the nurse in charge has been secured from the State Department of Health and is of value in

providing supervision for babies living at too great a distance for our visitors to cover.

With the consciousness that sound parenthood is essential to sound childhood and that the health of the infant is frequently dependent upon that of other members of the family, we want to interest ourselves increasingly in the physical needs of the rest of the household, and by encouragement and suggestion, see that they secure adequate medical care. Especially are we able to advise about the diet of other little children in the family and our Hospital connection frequently gives such advice the guarantee of a cordial reception. We neglect no opportunity to preach the gospel of milk and yet, more milk.

During the year we have made contacts with babies in 1,262 families, 585 from the preceding year and 664 new this year, with 13 who had been known previously through contact with other babies in the family. 266 of these 1,262 it is no longer necessary to follow. 322 have died, either in the Hospital or after discharge, and 57 were lost, leaving 617 actively followed at the beginning of the new year. 1,555 visits have been made, 1,369 to the homes and 186 to other agencies in the interest of the family. This represents only a portion of the work as much of the contact with other agencies is made by telephone or by letter.

Miss Dunn, though she has resigned as head worker, has continued generously to devote a large share of her time to the department.

The Social Service Committee, consisting of four members of the Ladies' Aid Committee, and one member from the Executive Committee, is now meeting monthly with the department to discuss questions of policy and aid with suggestions in the consideration of difficult family situations. We are anticipating increased efficiency through the contemplated assistance of volunteers from the Junior Ladies' Aid Committee.

Each day brings new opportunities and responsibilities. As the medical department understands better each year how to com-

bat physical ills, so our department aims at a better understanding of social ills and the remedies best suited to the individual family.

CAROLYN A. BROWN,  
*Head Worker.*

## INFANTS' HOSPITAL.

### TREASURER'S REPORT FOR YEAR 1919.

---

TOGETHER with this report is a statement of Income and Expenses and a Balance Sheet which shows that during the year 1919

Total receipts of the Hospital were . . . . . \$51,166

The expenses of the Hospital were \$51,951, so that there is a loss for the year of \$785. Under ordinary circumstances we might congratulate ourselves that this loss was not greater, but taking into consideration the fact that an unusual effort was made last year to raise money from the appeal, several of our Directors having worked for many days almost exclusively on this business, and the newspapers having been called upon to publish free of charge much advertising and reading matter, the result is rather disappointing to the Treasurer. We hoped very much that with these efforts our appeal might raise \$50,000 so that we could reduce the mortgage of \$45,000 and still pay our expenses. We are now faced with a serious financial problem. It does not seem feasible to have an appeal of quite the same intensity annually as people will certainly get tired of it and the results will grow less instead of greater; so we are attempting this year to raise as much as we can from direct appeals to former givers and from a less amount of advertising and publicity.

It does not seem probable that enough money can be raised in this manner to take care of the needs of the Hospital during this year, and later in the year, no doubt, some other steps will have to be taken to meet a budget which cannot well be cut down. Every possible economy consistent with service has been made and in our Social Service Department, owing to the absence of Miss Dunn, the cost will be greater than before. We also have the mortgage of \$45,000 which should be paid and we hope that by bringing this matter to the attention of those interested in

the Hospital some one may come forward who will be willing to help us.

From the point of view of the Treasurer the operation of the Hospital has been entirely satisfactory; in fact, the results have been surprising considering the limited amount of financial support and the great increase of costs and the difficulty of obtaining proper assistance at any cost.

Following the practice suggested to us by the "Committee of the Permanent Charity Fund, Inc.," our books have been rearranged so as to show more clearly the source of our funds and the distribution of their expenditure.

PHILIP STOCKTON,  
*Treasurer.*

After an examination of the books of the Infants' Hospital for the year ending December 31st, 1919, I hereby certify: that all cash shown to have been received has been accounted for; that I have seen satisfactory evidence of the approval and payment of all disbursements; that the balance called for by the cash book was on deposit in the bank or was in the office; that the income earned during the year by investments held by the Hospital was properly accounted for; and that the financial statements submitted herewith are correct transcripts from the books of account and, in my opinion, correctly set forth the financial condition of the Hospital as at December 31st, 1919, and the results of its operations for the year ended at that date.

CHARLES F. KELLOGG,  
Auditor.

Boston, January 22, 1920.

## THE LADIES' AID COMMITTEE.

President.

MRS. J. GARDNER BRADLEY.

Vice-President.

MRS. HOMER B. RICHARDSON.

Secretary.

MRS. JAMES JACKSON, JR.

Treasurer.

MRS. ALLAN FORBES,

70 Beacon Street.

### REPORT OF THE SECRETARY.

At the November meeting, an amendment was made to Article IV. of the By-laws, providing for six monthly meetings instead of eight during the year, from November to April inclusive.

The gifts of the Ladies' Aid to the Hospital during the year were ten dozen shirts and one hundred yards of diaper cloth and a piano for the Nurses' Library.

The Cutting Committee, which is one of our most important activities, had to be enlarged to meet its growing needs. Mrs. Charles Richardson was appointed to assist Mrs. Harrington in the buying and a sub-committee was formed to attend to the monthly cutting.

Owing to Mrs. Crowninshield's absence in the South every winter, Mrs. Homans was made chairman of the Social Service Committee.

The committee of the Ladies' Aid, with Mrs. Homer B. Richardson as chairman, gave valuable assistance to the appeal for money, by writing many personal notes.

Mrs. Homer B. Richardson, as a member of the Executive Committee of the Hospital, was put on the Social Service Committee of the Ladies' Aid, so that the Social Service Committee would have a representative at the Hospital meetings.

The attendance at the meetings was good throughout the year. Those who spoke at the meetings were Miss Ruggles, Miss Dunn, Dr. Howell and Dr. Morse.

Respectfully submitted,

RACHEL B. JACKSON,

*Secretary.*

MRS. THOMAS B. GANNETT.	MRS. GEO. H. SWIFT.

Mrs. Harrington reports for the Cutting Committee the following articles furnished:

32 medical crib blankets, 12 surgical crib blankets, 136 shawls,— Junior Branch, 165 medical sheets, 60 surgical sheets, 110 medical spreads, 28 surgical spreads, 120 flannel night gowns, 84 flannel petticoats, 5 large bed screens, 3 in set, 60 medical crib screens, 18 surgical crib screens, 60 large cotton gowns, 27 small cotton gowns given by Mrs. Gardiner, 92 crib pillow cases given by Mrs. Stackpole, 133 crib pillow cases, large, 118 damask towels for babies, 10 flannel squares.

Mrs. Homans reports for the Social Service Workers:

The meetings of the Social Service Committee were held during 1919 twice monthly and were more regularly attended than heretofore. No meetings were held during the summer, but it was arranged that one or more members could be consulted at any time.

Miss Anna Dunn's recommendation as to a permanent head worker for the department was approved by the Chairman and Miss Carolyn A. Brown was appointed by the Medical Director.

Mrs. Homer B. Richardson, a member of the Executive Committee, has been made a member of the Social Service Committee in order that this department may be in closer touch with the Executive Committee.

Regular meetings are being held once a month during this winter.

Mrs. ALLAN FORBES, IN ACCOUNT WITH THE LADIES' AID COMMITTEE.

## WET-NURSE DIRECTORY.

1919.

---

THE WET-NURSE Directory, at 63 Binney Street, was started in 1910, and has been under the direction of the Infants' Hospital since 1914.

The object of the Directory is to supply mother's milk to babies who are ill or who, for some reason, are deprived of their own mother's milk. It also affords an opportunity for unmarried or deserted mothers to keep their babies with them and earn good wages, one of the rules being that the baby shall not be separated from its mother.

The mother and baby are examined by an Infants' Hospital physician and no case is accepted unless it is found to be free from infectious and contagious diseases.

Formerly the girls, while waiting in the Directory for cases, received no wages. Now, after a week, they receive the same wage as if they were on a case — eight dollars a week, and they supply us with drawn breast milk, which enables us to fill small orders for breast milk and have varying amounts to be given away. All that is not ordered or sold by a certain time each day is sent to the Infants' Hospital, or given to any hospital which wishes to send for it. In that way we have increased materially our opportunity for helping sick babies.

With the exception of reducing the price of drawn breast milk from 50c to 25c an ounce, our prices remain the same. The charge for a wet-nurse is \$15 a week. Of this amount, which is paid to the Treasurer, the nurse receives \$8 and the Directory \$7. If the wet-nurse is not taken to the employer's home, but kept at the Directory and her milk drawn, the charge is \$30 a

week. Drawn breast milk at 25c an ounce may be obtained, also, at the Directory. A room is especially equipped as a milk-room, where the milk is drawn, and poured immediately into sterile bottles and iced. The Infants' Hospital is supplied with from 18 to 21 ounces a day.

The expenses of the Directory are necessarily large, owing to the need of so much personal attention and training for the girls and the necessity of much nourishing food.

When a wet-nurse is no longer able to nurse a baby, we help her to find other work, usually through the society from which she came to us.

From January 1st, 1919, to December 31st, 1919, twenty-five mothers were admitted to the Directory. Thirteen others made application but were not accepted for medical reasons, chiefly. Forty calls for nurses were filled, forty-five calls for milk for babies. One hundred seventeen ounces have been given to the Massachusetts General Hospital, three hundred eight ounces to the Massachusetts Eye and Ear Infirmary, fifty-eight ounces to the Floating Hospital, and six thousand seven hundred eleven ounces to the Infants' Hospital.

Milk has been given in a few cases to families who could not afford to pay for it.

The receipts from milk sold are \$1,934.25 and from milk given \$1,958.25, making a total of \$3,892.50.

The Maternity Homes and Maternity Wards in Hospitals have been very co-operative in sending mothers to the Directory.

Besides helping babies in Boston and vicinity this milk has extended into the White Mountains and has even gone across the continent from Maine to California.

The Wet-Nurse Directory is a charity that is far reaching and has many sides. One of the doctors at the Infants' Hospital said to me, "You can tell your girls there is not a measure used at the Hospital that does the good the breast milk does."

And who can say how much good is done for these poor unfortunate girls? Only He who said, "Neither do I condemn thee, go and sin no more."

# INFANTS' HOSPITAL

## Thirty-Eighth Annual Report

January 1, 1920 to January 1, 1921

# INFANTS' HOSPITAL

55 VAN DYKE STREET, BOSTON

---

INCORPORATED JANUARY 19, 1881

## Thirty-Eighth Annual Report

January 1, 1920, to January 1, 1921

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

An affiliated course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Y. W. C. A., 14 Appleton St., Boston.

The Hospital also controls a Directory for Wet Nurses at 63 Binney St., Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from eleven to twelve o'clock, and Wednesdays from two to three.

# OFFICERS OF THE INFANTS' HOSPITAL FOR 1921.

## REPORT OF THE MEDICAL DIRECTOR

---

The number of patients admitted during the year was fourteen less than in 1919, while the number of hospital days was 1640 less than in the previous year. This discrepancy was due to the fact that the average number of days' stay per patient was cut down from 20 to 18 by greater efficiency in administration. It was hoped that, by cutting down the length of each patient's stay, it would be possible to take care of more patients. It would have been, if more patients had applied, but throughout the year there have been one or more beds empty most of the time. It would seem, therefore, as if the hospital had approximately met the needs of the community for the care of very sick babies during the past year. The death rate, which was reduced 9 per cent in 1919, was lowered two per cent more in 1920.

The standard of the medical care of the patients has continued high. The Staff is still overworked, however, and has no time to devote to original investigation and research. Last year I spoke of the need of a larger Staff and of specially trained technicians and assistants to carry out the details of various researches, in order that the Hospital might fulfill all its functions, namely, the care of patients, instruction and research. I also called attention to the urgent need of funds for this purpose. At that time, it seemed reasonable to hope that such funds might be forthcoming. At present, it seems doubtful if there will be funds enough even to take care of patients.

Even more students and physicians have been taught in the Hospital than in the past. More than 250 graduates, coming from all parts of the United States and from such distant parts of the world as South Africa, China, South America and the Philippines, have attended the clinics during the year. There is no place in this country which offers such an opportunity for the study of infant feeding as this hospital. It would be most unfortunate for the medical profession and for the country, if this opportunity was withdrawn.

The Hospital has been most carefully and economically administered during the year under the able direction of Miss Alice K. Ruggles, the superintendent. The expenses of the Hospital, nevertheless, increased during the year, as it was predicted that they

would. How much they may be expected to decrease during the coming year, it is impossible to say. They certainly may be expected to come down rather than go up. It is difficult to see, however, how they can be materially reduced unless very radical changes are made. It would be possible to give up the Social Service Department, stop taking X-ray photographs, give up all but the simplest laboratory work, discharge the stenographer and have the staff of nurses keep the records, have the superintendent act as house-physician and surgeon, and thus make considerable reduction in the expenses. The patients could still be taken care of after a fashion, as they were twenty-five years ago. It is very doubtful, however, if any of us would be willing to see this done. It would seem wiser to close the Hospital. Expenses cannot be materially reduced, however, unless such sweeping changes are made.

The Hospital has been very fortunate in that it has not suffered from a lack of nurses like most other institutions. The explanation is that the training which the nurses receive here is so valuable and so impossible to obtain elsewhere that more training schools are anxious to affiliate with the hospital than can be accommodated.

The arrangement with the Directory for Wet Nurses has continued to be most advantageous to the hospital. It would not be possible to carry on the work of the hospital satisfactorily without the supply of breast milk which it provides.

Finally, the standard of the medical work of the hospital is high and the hospital is carefully and economically administered. The expenses of the hospital cannot be materially reduced without making sweeping changes which would greatly impair the standard of the medical work. This standard should not be lowered, but, for the good of the community, should be raised even higher.

JOHN LOVETT MORSE,  
*Medical Director.*

## REPORT OF THE PHYSICIAN-IN-CHIEF

---

In my report of last year, I presented an analysis of the medical work of the hospital, made with a view to determining how well we have succeeded and what are our shortcomings. It appeared that our two principal failures to realize our ideals were first, in the treatment of a certain class of chronic cases of functional disturbance, and second, in the production of research work which would be worthy of the Hospital.

The failure to obtain the best possible results in the treatment of cases of chronic disturbance of nutrition, came from the prevalence in the hospital of infections of the upper respiratory tract, usually involving the ears, which infections we believe to be transmissible. The Medical Staff has devoted much time to the study of these infections and to the devising of methods of lessening their prevalence. Although we have been unable to carry out all the measures that we desired, owing to the limitations pointed out in my last year's report, nevertheless we feel that the results of our efforts have been most encouraging. We have brought about a marked reduction in the number of babies who contracted an infection after entering the hospital. I think we are justified in considering that babies who showed no evidence of infection for five days after entering the hospital, but who later became infected, contracted their infection within the hospital. From the opening of the hospital in 1914 until February, 1919, the incidence of infection in these cases was 35 per cent. In February, 1919, we began a systematic fight against these infections. From February, 1919, until June, 1920, the incidence of these infections was only 15 per cent. Since June, 1920, when our present system of care has been in full force, infection has only occurred in 7 per cent of babies admitted clean.

The hospital mortality in 1919 was 31 per cent, and in 1920 was 28 per cent, showing a reduction of 3 per cent. I believe that this reduction is mainly if not wholly due to the lessening of the prevalence of hospital infection, for the mortality among babies thus infected is as high as 25 per cent. The hospital mortality would show a greater reduction, were it not for the fact that we have had in the

last year an unusually large number of cases which were on admission either actually moribund, or in such extremely bad physical condition that their treatment was hopeless from the start. It must be remembered that the cases admitted to the Infants' Hospital represent the most hopeless cases in the community, the picked failures coming from a large territory. Many physicians do not send us their cases until they have exhausted every means of treatment within their knowledge or power. It is for this reason that the hospital mortality is as high as it is, but nevertheless it compares very favorably with the mortality among babies under two years of age in other institutions. If we deduct from our fatal cases babies who died within twenty-four hours after admission, our death rate would be 20 per cent. The Medical Staff considers that its first objective is a further reduction of this mortality.

In the matter of research, we are still hampered by too small a Medical Staff. Our Staff is now adequate for the best care of the babies, and for the work of teaching nurses, medical students, and graduate physicians. The Staff is, however, not large enough to allow us much time for research, although a certain amount of clinical research is now being carried on. This work, however, cannot be sufficiently thorough and complete under present conditions. We can only reach a certain point, and then laboratory facilities are needed if completeness is to be obtained. Unless we have increased laboratory facilities, and salaried technical workers, we cannot produce research work of a value worthy of the Hospital and of its Staff. The Staff, has, however, carried on studies which have added to our knowledge of infantile tuberculosis, congenital pulmonary atelectasis, pyloric stenosis, thick cereals in infant feeding, spasmophilia, and hydrocephalus.

We have no difficulty now in obtaining good House Officers. The reputation of the Hospital as a place for training in pediatrics has spread very widely. Applications come to me from all parts of this country and from Canada, sent in by men who state that they believe that the Infants' Hospital service is of the greatest value.

The fact that the hospital has neither an Out Patient Department nor a Convalescent Home makes it necessary that our cases when discharged must be transferred to the care of other physicians.

There is always a certain risk in such a change, particularly in cases which present very difficult nutritional problems. We have always endeavored to lessen the disadvantages of a change of physicians by transmitting to the physician who is to have the care of the baby, a detailed report of what we have learned and what we have done.

In these cases the Social Service Department is invaluable in seeing that the babies have proper care at home, and that there is no break in the continuity of their treatment. Nevertheless, we have found that in a certain number of cases, babies discharged in good condition, do badly at home. It is often difficult to decide whether the fault lies in home conditions, or comes from a change of medical care, the new physician possibly not giving sufficient weight to our report of what was learned in the hospital. To avoid this difficulty, we have arranged that in certain cases babies discharged from the hospital shall remain under our care for a time sufficiently long to insure that they can do well at home. Such cases are referred to the Social Service Department and are visited at home by one of the Staff, and are not transferred to new medical care until we are sure that they are doing well.

I believe that a large part of the work which the Infants' Hospital is doing for the community could not be duplicated in any other institution. The care of acute cases of self-limited disease, and the diagnosis of obscure conditions, might be carried on satisfactorily in an institution not especially designed for children under two years of age. But the majority of our cases present peculiar problems, which can only be solved by days or weeks of special study, carried on with the aid of the milk laboratory, wet-nurse directory, and the accumulated experience obtained in an institution of this kind. It is gratifying to feel that there is a constantly increasing number of cases, which seem hopeless for a long time, but which after weeks of study, become solved problems, and finally go home in good physical condition.

CHARLES HUNTER DUNN,  
*Physician-in-Chief.*

## REPORT OF THE SUPERINTENDENT

---

Number of patients remaining in the hospital, December 31, 1919 . . . . .	34	
Number of patients admitted during the year 1920 . . . . .	723	
Number of patients discharged during the year 1920 . . . . .		724
Number of patients remaining in the hospital, December 31, 1920 . . . . .		33
Total . . . . .		757 757
Total number of hospital days . . . . .	13,484	
Average number daily . . . . .	36+	
Average days' stay a patient . . . . .	18+	
DISCHARGES:		
Relieved . . . . .		450
Unrelieved . . . . .		10
Transferred to other hospitals. . . . .		20
Discharged on parents' own responsibility or against advice . . . . .		35
Died . . . . .		209
Remaining in the hospital, December 31, 1920 . . . . .		33
Total . . . . .		757

Conditions at the hospital remain about the same.

For the first time in three years, we were obliged to quarantine, on account of Scarlet Fever among the nurses. Three, unfortunately, were victims, but no cases appeared among the babies. They were very mild cases without complications and the nurses were all returned to duty in about four weeks.

Several necessary repairs were obliged to be made for the upkeep of the hospital, namely, painting, new sinks in the kitchen and new awnings for the south side of the hospital, besides many minor repairs. The painting and replenishing of awnings was the first large work done since the opening of the building. There is still much painting that should be attended to as soon as possible.

A few changes have occurred in the executive force, but the number remains the same.

The affiliated training school now has nurses from the Faulkner Hospital, Jamaica Plain, The New England Baptist Hospital, The Cambridge Hospital and the Melrose Hospital. One hospital was obliged to withdraw its nurses for a short time on account of lack of probationers, but will resume sending them again in March. We have also given training in home nursing to two young women from Miss Windsor's Training School. The nursemaids' school is about the same and, as usual, we are unable to supply the demand.

We have had several gifts from the Ladies' Aid Committee. They also gave a dance for the nurses and a theatre party for the nursemaids, both of which were greatly appreciated.

With careful supervision and attempt in every way to curtail, we have felt the high cost of living more this year than last, but we are looking forward to better results in the future.

We wish to thank the governing board for their support; the physicians for their services, and all those who have contributed so kindly to carrying on the work of the hospital and to acknowledge the faithful services of all co-workers.

ALICE K. RUGGLES,  
*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT For the Year 1920

---

THE Social Service Department this year has to report a rather radical change in its organization and policies. Early in the year, Miss Dunn, who had been giving full time to the work of the department, left for an extended period. She does not expect in the future to devote as much time to the work of the Hospital. As the Executive Committee did not feel justified in sanctioning the salary for a paid assistant, the scope of our work had to be curtailed to meet the existing situation.

The period immediately following the infant's discharge from the hospital is the most critical, and it is at this period we can hope to accomplish the most in teaching the mother and in securing medical supervision for the baby either through private physician or clinic. Frequently mothers are careless in carrying out suggestions as to this medical supervision, not realizing that along this path lies the hope of continued health. Hence, frequent calls may be necessary before the object is attained. We have depended increasingly on the Baby Hygiene Association to look after these babies living in the city, and we have found the nurses eager to help in any possible way.

This year has brought its quota of perplexing situations largely due to unstable family conditions and unmarried maternity, some solution for which must be found in order to secure suitable care for the baby. It would seem that an increasing number of young mothers found it easier to board their babies and continue as wage earners rather than accept the humble home the husband's wages were adequate to provide. This, we assume is an aftermath of the war, as so many of our young women at that time married and continued their work in shop or office. We do not feel that any boarding home is a substitute for that which the parents should provide for their own children.

We are no longer making routine visits at stated intervals for the purpose of obtaining reports of the physical condition of the infant after discharge for the Staff. However, we stand ready to secure such reports on specific groups of cases if they are wanted for the sake of further study.

During the year we have been in contact with 551 families, 137 of which number were carried over from last year. A total of 1,370

visits have been made — 1,222 to the homes, and 148 to agencies, relatives or interested individuals.

As in previous years, the department has had one of the pupil nurses for a month at a time for training and social work. This time of course is too brief to give her anything but the most general idea of the practice of medical social service. These nurses, however, have been without exception interested and enthusiastic in their desire to help the mothers and babies whom they have visited. In addition, by arrangement with the Baby Hygiene Association, she has given one afternoon weekly to their clinic, so she may know of the methods pursued by that organization.

The Social Service Committee have continued meeting monthly during the year with the exception of the summer period, and have been a source of great help through advice and loyal support.

The Junior Ladies' Aid in the fall, asked what they might do to be of service to the department, and it was suggested that they organize a motor corps to aid the department in making calls at a distance. As a result of this we now have the use of the motor one afternoon each week, which has been a great help in reaching some of our families who live in the surrounding towns.

This year unemployment promises to be an outstanding factor among conditions which we must weigh before returning babies to their homes, as it seems useless to give a baby expensive care in the hospital and have it go back to unsuitable or inadequate food at home.

To measure results seems impossible, yet if any work is worth while which helps to lower infant mortality, the work of our department must justify itself, as we continually aim to make parents more intelligent and home care more adequate.

Respectfully submitted,

CAROLYN A. BROWN,

*Head Worker.*

## INFANTS' HOSPITAL

TREASURER'S REPORT FOR YEAR 1920

---

The Treasurer's report for the past year is most unsatisfactory.

The expenses of the hospital were about \$10,000 greater than the previous year, without an increase in receipts from appeals and donations.

This has resulted in a deficit for the year which has been paid for by using funds intended to be credited to our principal account.

In spite of the most energetic efforts, receipts continually run behind expenditures and unless something can be done promptly to remedy this condition part, at least, of the work of the hospital must be given up.

Appended to this report is a statement of Income and Expenditures and a balance sheet as of December 31, 1920.

PHILIP STOCKTON,  
*Treasurer.*

January 28, 1921.

Boston, January 26th, 1921.

## THE LADIES' AID COMMITTEE

---

President

MRS. J. GARDNER BRADLEY

Vice-President

MRS. HOMER B. RICHARDSON

Secretary

MRS. JAMES JACKSON, JR.

Treasurer

MRS. ALLAN FORBES  
70 Beacon Street

---

### REPORT OF THE SECRETARY

DURING the past year the Ladies' Aid Committee has held their regular monthly meeting from November to May inclusive. The following people spoke at the various meetings: Miss Brown, Miss Dunn, Dr. Morse, Dr. Dunn, Dr. Howell.

The gifts to the hospital the past year were: providing refreshment at a party for the nurses; the services of a sewing woman; the balance of the money owed on the piano for the nurses' room; and twelve dozen babies' shirts.

The Cabaret held in April was the most successful ever given, and netted \$2,876. Mrs. R. F. Clark, on her own initiative, gave a very successful bridge party at her house, which netted \$415, \$96.50 of which was spent on a parafine oven, much wanted for research work.

Twenty-five dollars has been voted as an emergency fund, to the Social Service Department, and \$10 was subscribed for the hospital, to join the Boston Council of Social Agencies.

Respectfully submitted,

R. B. JACKSON,  
*Secretary.*

*Executive Committee.*

MRS. J. GARDNER BRADLEY, *President and Chairman Nursery Maid's Committee.*  
 MRS. HOMER B. RICHARDSON, *Vice-President.*  
 MRS. JAMES JACKSON, JR., *Secretary.*  
 MRS. ALLAN FORBES, *Treasurer, 70 Beacon Street.*  
 MRS. JOHN HOMANS, JR., *Chairman Social Service Committee.*  
 MRS. CHARLES HARRINGTON, *Chairman Cutting Committee.*  
 THE MEDICAL DIRECTOR (*ex-officio*).

*Committee for Cutting out Garments.*

MRS. CHARLES HARRINGTON, *Chairman.*

MRS. J. G. BRADLEY, *Chairman.*

MRS. J. A. L. BLAKE.	MRS. PHILIP STOCKTON.
MRS. THOMAS B. GANNETT.	MRS. GEO. H. SWIFT.

Mrs. Harrington reports for the Cutting Committee the following articles furnished:

2½ dozen hot water jug covers, 1 dozen laboratory aprons, 3 dozen small crib screens, 2 dozen floor screens, 9 dozen blankets, 4 dozen very small towels, 9 dozen and 2 large cotton night gowns, 8 dozen and 9 small cotton night gowns, 5 dozen large outing flannel gowns, 2 dozen small outing flannel gowns, 1 dozen sleeping bags, 4 dozen large quilts, 8 dozen and 8 small quilts, 10 dozen large sheets, 40 dozen small sheets, 6 dozen hand restrainers, 3 dozen body restrainers, 10 dozen small pillow cases, 6 dozen and 7 large pillow cases and 1,200 diapers.

Mrs. Homans reports for the Social Service Committee:

The Social Service Committee has met monthly with Miss Brown, the Social Worker, to discuss questions of policy relating to the department, and to aid by suggestions, in the treatment of difficult cases.

The time of meeting has been changed to the hour before the regular monthly meeting of the Ladies' Aid, which has made it easier to secure a good attendance.

During the summer months the Committee was too scattered to meet, but the chairman was in touch with the department and could be called upon for any emergency.

At the suggestion of the chairman the Ladies' Aid Committee has voted to set apart a fund of twenty-five (\$25.00) dollars, which can be drawn upon at the discretion of the head worker in the department.

MRS. ALLAN FORBES, IN ACCOUNT WITH THE LADIES' AID COMMITTEE.

## WET-NURSE DIRECTORY

1920

---

THE Wet-Nurse Directory, at 63 Binney Street, was established by Dr. Fritz Talbot in 1910, and has been under the direction of the Infants' Hospital since 1914.

The object of the Directory is to supply mother's milk to babies who are ill or who, for some reason, are deprived of their own mother's milk. It also affords an opportunity for unmarried or deserted mothers to keep their babies with them and earn good wages, one of the rules being that the baby shall not be separated from its mother.

The mother and baby are examined by an Infants' Hospital physician and no case is accepted unless it is found to be free from infectious and contagious diseases.

The girls receive \$8.00 a week, and they supply us with drawn breast milk, which enables us to fill the many calls for breast milk and have varying amounts to be given away. All that is not ordered or sold by a certain time each day is sent to the Infants' Hospital, or given to any hospital which wishes to send for it. In that way we have increased materially our opportunity for helping sick babies.

The charge for a wet-nurse is \$20.00 a week, if taken to the home, and \$30.00 a week, if maintained at the Directory. Drawn breast milk at 25 cents an ounce may be obtained at the Directory. A room is especially equipped as a milk-room, where the milk is drawn, and poured immediately into sterile bottles and iced. The Infants' Hospital is supplied with from 18 to 21 ounces a day.

The expenses of the Directory are necessarily large, owing to the need of so much personal attention and training for the girls and the necessity of much nourishing food.

When a wet-nurse is no longer able to nurse a baby, we help her to find other work, usually through the society from which she came to us.

During the year 1920, the Infants' Hospital was supplied with 8918 ounces of breast milk; the Children's Hospital, 45 ounces; the Massachusetts General Hospital, 67 ounces; the Massachusetts Eye and Ear Infirmary, 144 ounces; the Boston Floating Hospital, 318 ounces;

and 212 ounces were supplied to two private cases. This makes a total of 9,692 ounces which is equivalent to \$2,423.00. The number of ounces sold was 7,132, amounting to \$1,783.00.

Twenty (20) nurses were admitted to the Directory and twelve (12) others applied. Sixty-eight (68) calls for milk were filled and twenty-eight nurses were placed on cases.

The Maternity Homes and Maternity Wards in hospitals have been very co-operative in sending mothers to the Directory.

We have supplied breast milk, not only in Boston and vicinity, but also in other states, extending from the White Mountains even to California.

The Wet-Nurse Directory is a charity that is far-reaching and has many sides. One of the doctors at the Infants' Hospital said to me, "You can tell your girls there is not a measure used at the Hospital that does the good the breast milk does."

Dr. John Lovett Morse says: "No one who has not attempted to find a wet-nurse, or to get breast milk for a seriously sick baby, before the establishment of the Directory of Wet-Nurses, can appreciate what a boon the Directory is. Before there was a Directory for Wet-Nurses the baby often died before the nurse or breast milk could be procured. The supply of breast-milk, which the Directory furnishes to the Infants' Hospital, and the other institutions in case of need, is of inestimable value. It would not be possible to do justice to the babies at the Infants' Hospital if this supply of breast milk was not available."

## Thirty-Ninth Annual Report

January 1, 1921 to January 1, 1922

# INFANTS' HOSPITAL

55 VAN DYKE STREET, BOSTON

---

INCORPORATED JANUARY 19, 1881

## Thirty-Ninth Annual Report

January 1, 1921 to January 1, 1922

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

An affiliated course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Y. W. C. A., 14 Appleton St., Boston.

The Hospital also controls a Directory for Wet Nurses at 63 Binney St., Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from eleven to twelve o'clock, and Wednesdays from two to three.

## REPORT OF THE MEDICAL DIRECTOR

---

As compared with the preceding year the work of the Infants' Hospital during 1921 showed few important changes. The mortality which was three per cent less in 1920 than in 1919, was 2.7 per cent lower this year than in 1920. The total mortality was 26.1 per cent in 1921.

As pointed out by the Physician-in-Chief in his report for the year 1920, a fairly high mortality in an institution of this kind is quite unavoidable. This situation arises from the fact that a number of the patients are practically moribund on admission. Considering the type of case coming to this institution the results are very favorable. Many of the infants admitted are suffering from the severest grades of malnutrition, which may be of serious consequence. In addition to this underlying condition, many have acute infections of various kinds.

There are many phases of nutrition in infants which are obscure. This is equally true of the disorders of nutrition to which infants are subject, and these conditions furnish problems which can be investigated to particular advantage at the Infants' Hospital. In addition to the problems of nutrition there are forms of acute disease which furnish fields for research. Such investigations can be inaugurated after the appointment of a larger staff, comprising physicians with laboratory training. Needless to say, work of this kind is laborious, time consuming and not always fruitful, but nevertheless offers opportunities too great to be neglected.

Certain changes have been made in the House Staff through the establishment of a combined service with the Children's Hospital. House Officers are now appointed for fifteen months' service, nine months at the Children's Hospital and six months at the Infants' Hospital. In addition there has been a Resident Physician appointed in charge of both institutions, and an Assistant Resident Physician on continuous duty at the Infants' Hospital. These measures will, I believe, prove of value in insuring prompt and efficient treatment for the patients, and also in aiding teaching and investigations.

The work of caring for sick infants is, I believe, thoroughly and efficiently done. This is due in large part to the excellent administration and nursing and to the careful and accurate work of the diet kitchen.

OSCAR M. SCHLOSS,  
*Medical Director.*

## REPORT OF THE SUPERINTENDENT

---

Number of patients remaining in the Hospital, December 31, 1920 . . . . .	33	
Number of patients admitted during the year 1921 . . . . .	743	
Number of patients discharged during the year 1921 . . . . .		728
Number of patients remaining in the Hospital, December 31, 1921 . . . . .		48
Total . . . . .		776 776

Total number of hospital days . . . . .	13,429
Average number of patients daily . . . . .	36+
Average days' stay a patient . . . . .	18+

### DISCHARGES:

Relieved . . . . .	448
Unrelieved . . . . .	31
Transferred to other hospitals . . . . .	30
Discharged on parents' own responsibility, or against advice . . . . .	29
Died . . . . .	190
Remaining in the Hospital, December 31, 1921 . . .	48
<hr/>	
Total . . . . .	776

There is little change in the Hospital statistics from the previous year, with the exception of twenty more admissions and nineteen less deaths.

The executive force remains the same, excepting the change of one Head Nurse.

The affiliated training school includes pupils from the Faulkner, Baptist, Melrose, Cambridge, Chester and Malden hospitals and we have two schools on our list very anxious to send pupils here.

The Ladies' Aid Committee has been especially active this year and have most graciously given us many donations, such as purchasing and attending to the cutting and making of hospital garments; paying for the relaying of four floors and the painting of the two large wards and bathing rooms; furnishing twenty-five extra chairs for the Lecture Hall; paying the entire salary for the Social Service Worker for the coming year; subscribing for current magazines for the Nurses' Library; a fund for taxi fares for needy patients on discharge, and numerous other kindnesses.

We have endeavored to bring the expenses down and have been somewhat successful in some departments.

We wish again to thank all who kindly contributed their services to the Hospital and to acknowledge the devoted service of all connected with the Institution.

ALICE K. RUGGLES,  
*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT For the Year 1921.

---

The present worker entered upon her duties in June of 1921.

Including the work of the previous five months of the year, the Department records show the following statistics for the year 1921:

We have had referred to us and actively followed 247 cases.

The number of visits made to the homes, interested individuals and agencies were 1561. About one-quarter of these were visits to non-active cases; that is, cases which we were not obliged to follow closely.

In brief, our aim and work have been:

First, To ascertain the home conditions of each baby referred to us that arrangements may be made for its care on discharge from the hospital if the home is found unsuitable.

Second, To assist the mother in following the directions given her by the hospital and instruct her as may be necessary in the care of her child.

Third, To visit the home until it is possible to bring the child under the supervision of an Out-Patient Department, Child Welfare or Baby Hygiene clinic.

We have found the workers and nurses representing these agencies co-operative in every way.

Fourth, To interest ourselves in others of the household needing medical direction, realizing that the health of the child is dependent largely upon the health of other members of the family, and by counsel and encouragement see that they secure adequate care.

The unemployment situation has been one frequently encountered in these past months. We have found many of our families receiving aid and have had occasion to refer others to proper agencies for assistance. In a number of instances we have ascertained that the baby's illness has come about through economical measures which the family were obliged to adopt, the milk supply being cut down and poor foods substituted. The Milk Fund in such cases has been of invaluable assistance to us, and these babies upon their return home have thus been assured continuance of proper feeding.

A most perplexing problem is the baby who no longer needs institutional care but is much in need of good convalescent care, which in many instances he cannot receive at home. Unfortunately, for lack of other accommodation, several of such babies have had to return directly to their homes.

The Social Service Worker has been assisted by a pupil nurse sent to the Department for a month's training in social work. These nurses have been interested and enthusiastic workers and have been a great aid to the Department.

The Social Service Committee of the Ladies' Aid have held their usual monthly meetings with the worker, and their interest, advice and loyal support have been much appreciated.

The Emergency Fund given by the Ladies' Aid to be used in time of special need has proved of valuable assistance.

The Department has been favored with the use of a car one afternoon a week loaned by a member of the Junior Ladies' Aid. This has saved us much time and enabled us to make long distance calls which otherwise might not have been accomplished.

Each day brings its problems to solve and opportunities for service. It is an inspiration to know that we have a part in the work that is accomplishing so much in saving the lives of infants and making parents more intelligent in the care of their own health and that of their children.

MARION C. FUSSELL,  
*Head Worker.*

INFANTS' HOSPITAL  
TREASURER'S REPORT FOR YEAR 1921

---

I present herewith the income and expense account in considerable detail, together with a balance sheet showing the financial condition of the Hospital.

The year 1921 showed some improvement over 1920 in the Hospital expenses and the results of the appeal were, under all circumstances, most satisfactory.

Additional gifts are badly needed for the Social Service Department and a home for nurses would be most helpful, but cannot be considered without special gifts.

PHILIP STOCKTON,  
*Treasurer.*

February 1, 1922.

## REPORT OF THE STATEMENT OF INCOME AND

	Dr.	Cr.
Received from:

After an examination of the books of the Infants' Hospital for the year ending December 31st, 1921, I hereby certify: that all cash shown to have been received has been accounted for; that I have seen satisfactory evidence of the approval and payment of all disbursements; that the balance called for by the cash book was on deposit in the bank or was in the office; that the income earned during the year by investments held by the Hospital was properly accounted for; and that the financial statements submitted herewith are correct transcripts from the books of account and, in my opinion, correctly set forth the financial condition of the Hospital as at December 31st, 1921, and the results of its operations for the year ended at that date.

CHARLES F. KELLOGG,  
Auditor

Boston, January 25th, 1921.

## THE LADIES' AID COMMITTEE

---

*President.*

MRS. WILLIAM W. CASWELL.

*Vice-President.*

MRS. HOMER B. RICHARDSON.

*Secretary.*

MRS. WILLIAM RODMAN FAY.

*Treasurer.*

MRS. HORACE GRAY.

---

### REPORT OF THE SECRETARY

During the past year the Ladies' Aid Committee has held its regular monthly meetings from November to April inclusive. The following people spoke at the various meetings: Miss Brown, Dr. Dunn, and Mr. Seymour.

At the annual meeting in April the foregoing officers were elected to serve for one year.

The amount netted by the Cabaret was the largest ever received, \$3,186.22. Fifteen hundred dollars of this sum was voted to pay the salary of the Social Service Worker for one year.

A Moving Picture Show was given in conjunction with the Welfare Committee of the Children's Hospital. \$447.68 was realized from this source. This money went directly to the Hospital treasury and does not appear on our Treasurer's books.

The gifts to the Hospital last year were twelve dozen babies' shirts; magazines for the Nurses' Library, and twenty-five chairs to be used at the clinics. Seven hundred dollars were spent to paint four wards and put terrazzo floors in the bathing rooms; twenty-five dollars were voted as an emergency fund to be used at Miss Ruggles' discretion, and four hundred dollars were set aside to be used by the Publicity Committee.

Miss Clark organized a series of doll and toy sales that were exceedingly successful and made over \$1,400.00 for the Hospital.

K. H. PUTNAM,

*Acting Secretary.*

*Executive Committee.*

MRS. WILLIAM W. CASWELL, *President.*  
 MRS. HOMER B. RICHARDSON, *Vice-President.*  
 MRS. WILLIAM RODMAN FAY, *Secretary.*  
 MRS. HORACE GRAY, *Treasurer.*  
 MRS. JOHN HOMANS, JR., *Chairman of Social Service Committee.*  
 MRS. CHARLES HARRINGTON, *Chairman Cutting Committee.*  
 THE MEDICAL DIRECTOR (*ex-officio*).

*Committee for Cutting Garments.*

MRS. OLIVER AMES, JR.	MRS. JAMES MEANS.
MRS. ARTHUR M. BEALE.	MRS. FRANK PARKER.
MRS. WILLIAM W. CASWELL.	MRS. JOHN PENMAN.
MRS. EDWARD CUNNINGHAM.	MRS. CHARLES RICHARDSON, <i>Director.</i>
MRS. CHARLES HARRINGTON, <i>Director.</i>	MRS. ROGER SCAIFE.
MISS IDE.	MRS. HUGH SCOTT.
MRS. ALEXANDER LINCOLN.	MRS. PHILIP STOCKTON.
MRS. CHAS. T. LOVERING.	MRS. JOHN WHEELWRIGHT.
MRS. G. HERBERT WINDELER.	

Mrs. Harrington reports for the Cutting Committee the following articles furnished:

1 dozen food laboratory gowns, 1 dozen pathological laboratory gowns, 64 outing flannel jackets, 4 dozen large spreads, 8 dozen small spreads, 119 large sheets, 354 small sheets, 74 large pillow cases, 6 dozen large flannel night gowns, 68 small flannel night gowns, 4 hot water bag covers, 6 large sleeping bags, 7 small sleeping bags, 1 dozen floor screens, 2 dozen small crib screens, 160 head pads, 61 premature jackets, and 1,000 diapers.

*Social Service Committee.*

MRS. JOHN HOMANS, JR., *Chairman.*

MRS. OLIVER AMES, JR.	MRS. W. A. PARKER.
MRS. J. W. CUMNOCK.	MRS. H. B. RICHARDSON.
MRS. F. A. HARDING.	MRS. R. G. WADSWORTH.

The Social Service Committee has held regular meetings during the year one hour before the meetings of the Ladies' Aid Committee.

During the summer months, when the members of the Committee are unable to meet, the Chairman kept in touch with the activities of the department.

The regular worker, Miss Carolyn Brown, resigned on March 14th, 1921. Miss Anna C. R. Dunn volunteered her valuable services and ran the department until Miss Brown's successor could begin work.

Miss Marion C. Fussell was appointed head worker and began her work June 13th, 1921. She trained as a hospital nurse at the New England Baptist Hospital and, after that, had fourteen months' experience as visiting nurse with the Instructive District Nursing Association. During her nursing course, she had four months' training in Public Health Work, also, four months at the Infants' Hospital.

The idea of the Committee in obtaining a worker with Miss Fussell's experience is to be able to give practical nursing instructions to the mothers in follow up work, as well as to meet the social needs of the case.

ALICE HOMANS,  
*Chairman Social Service Committee.*

MRS. HORACE GRAY, IN ACCOUNT WITH THE LADIES' AID COMMITTEE,

## WET-NURSE DIRECTORY

1921

---

The Wet-Nurse Directory, at 63 Binney Street, was established by Dr. Fritz Talbot in 1910 and has been under the direction of the Infants' Hospital since 1914.

The object of the Directory is to supply mother's milk to babies who are ill or who, for some reason, are deprived of their own mother's milk. It also affords an opportunity for unmarried or deserted mothers to keep their babies with them and earn good wages, one of the rules being that the baby shall not be separated from its mother.

The mother and baby are examined by an Infants' Hospital physician and no case is accepted unless it is found to be free from infectious and contagious diseases.

The girls receive \$8.00 a week and they supply us with drawn breast milk, which enables us to fill the many calls for breast milk and have varying amounts to be given away. All that is not ordered or sold by a certain time each day is sent to the Infants' Hospital or given to any hospital which wishes to send for it. In that way we have increased materially our opportunity for helping sick babies.

The charge for a wet-nurse is \$20.00 a week, if taken to the house, and \$30.00 a week, if maintained at the Directory. Drawn breast milk at 25 cents an ounce may be obtained at the Directory. A room is especially equipped as a milk-room, where the milk is drawn and poured immediately into sterile bottles and iced. The Infants' Hospital is supplied with from 18 to 21 ounces a day.

The expenses of the Directory are necessarily large, owing to the need of so much personal attention and training for the girls and the necessity of much nourishing food.

When a wet-nurse is no longer able to nurse a baby, she is helped to find other work, usually through the society from which she came to us.

During the year 1921, the Infants' Hospital was supplied with 8,254 ounces of breast milk; The Massachusetts Eye and Ear Infirmary, 1,432 ounces; The Boston Lying-In-Hospital, 390 ounces; one

private case, 758 ounces. This makes a total of 10,884 ounces, which is equivalent to \$2,708.25. The number of ounces sold was 11,699, amounting to \$2,924.75.

Thirty nurses were admitted to the Directory and seven were rejected.

Ninety calls for milk were filled and thirty-two nurses were placed on cases.

The Maternity Homes and Maternity Wards in hospitals have been very co-operative in sending mothers to the Directory.

An appeal was sent out by the Committee in March and met with quite a generous response, but our need for funds is urgent and in your gifts to charities this year, we hope you will kindly remember the Directory for Wet-Nurses.

INCORPORATED JANUARY 19, 1881

## Fortieth Annual Report

January 1, 1922 to January 1, 1923

THE INFANTS' HOSPITAL is a Hospital devoted to the medical treatment of Infants.

The patients taken care of in the Hospital wards are under two years of age. The admission of patients is not confined to residents of Boston.

Emergency cases will be admitted at any time if there is an existing vacancy. Questions in regard to such cases, and other matters of information, may be referred by telephone to the Hospital at any time.

Telephone — Brookline 5500.

An affiliated course of instruction for Nurses is given at the Hospital by the Hospital Staff.

A training school for Nursery Maids is maintained by the Hospital. Instruction is given in the care and feeding of infants. Graduates of this school may be obtained upon application to the Y. W. C. A., 14 Appleton St., Boston.

The Hospital also controls a Directory for Wet Nurses at 63 Binney St., Brookline. Telephone — Brookline 2930.

Relatives are admitted to the wards on Sundays from eleven to twelve o'clock, and Wednesdays from two to three.

## ANNOUNCEMENT

---

As a matter of public policy and economy it was deemed wise to sell the building in which the Infants' Hospital has operated for past years to Harvard, to be used for the new School of Public Health. Satisfactory arrangements have been made to preserve the memorial character of the building and its features. A modern and more adequate building, less expensive than the present building, is being erected upon land of the Children's Hospital adjoining the old premises, where the work of the Infants' Hospital will hereafter be carried on under a working agreement with the Children's Hospital. This new building, likewise a memorial to Thomas Morgan Rotch, Jr., will be owned and financed by the Infants' Hospital Corporation and operated at the expense of the Infants' Hospital through the agency of the Children's Hospital. The new building is practically completed and will be occupied by the Infants' Hospital in the near future.

## REPORT OF THE MEDICAL DIRECTOR

FOR 1922

---

There has been no essential change in the character of the work carried on by the Hospital during the past year.

The statistics for the year show several differences which are of interest. The total number of babies treated was 132 less than in the preceding year. This was due entirely to the fact that the individual patient was kept a longer time. The total number of hospital days was 13,898, as compared with 13,429 for the preceding year, and the average stay in the hospital was 22 instead of 18 days. The mortality was three per cent lower than in 1921.

The high mortality rate of infants' hospitals, especially in summer, is contributed to largely by the toxic effects due to large losses of water caused by diarrhoea. This condition is always serious and frequently fatal. The results obtained in the Hospital during the past year have been very gratifying. By administration of very large amounts of glucose solution into the veins and water into the subcutaneous tissues, it has been possible to save the lives of a number of infants who might otherwise have succumbed.

The danger of ward infections in hospitals caring for infants has been mentioned in the hospital reports on a number of occasions. One of the great difficulties in treating young infants in hospitals is their susceptibility to intestinal and upper respiratory infections. In the usual type of ward it is a practical impossibility to prevent such infection in susceptible infants. The only system which has been of preventive value is the so-called "unit system" by which each patient is practically isolated from all others. Such an arrangement is possible only when the infants are separated by glass cubicles and all instruments, clothes and utensils used in their care and treatment are kept separately.

The new Infants' Hospital has been planned to furnish proper facilities for carrying out such precautions. By such means it should be possible to prevent ward infections to a considerable degree and thereby shorten materially the infant's stay in the hospital.

It has recently been demonstrated that ultra-violet light is of considerable value in the treatment of rickets and certain forms of tuberculosis. This is still in somewhat of an experimental stage, but the results are promising. One of the great difficulties in using this form of treatment is the expense involved. Through the co-operation of the Ladies' Aid of the Infants' Hospital it has been possible to purchase a mercury vapor quartz light which will be used in connection with the work at the Hospital.

It was mentioned in the report of last year that a combination between the interne staff of the Children's and Infants' Hospitals had been made. This arrangement has been very satisfactory. Each house officer is given a service of fifteen months' duration, 6 months of which is spent at the Infants' Hospital. This insures having regularly men who have had adequate training in pediatrics.

Teaching has been done in the wards of the Infants' Hospital as heretofore. The Fourth Year students of the Harvard Medical School are on duty in the wards for one month.

The work of the Medical Department has been greatly facilitated by the thorough co-operation of the nursing and administrative departments.

OSCAR M. SCHLOSS,  
*Medical Director.*

After an examination of the books of the Infants' Hospital for the year ending December 31st, 1922, I hereby certify: that all cash shown to have been received has been accounted for; that I have seen satisfactory evidence of the approval and payment of all disbursements; that the balance called for by the cash book was on deposit in the bank or was in the office; that the income earned during the year by investments held by the Hospital was properly accounted for; and that the financial statements submitted herewith are correct transcripts from the books of account, and in my opinion, correctly set forth the financial condition of the Hospital as at December 31st, 1922, and the results of its operations for the year ended at that date.

CHARLES F. KELLOGG,

*Auditor.*

January 22d, 1923.

## INFANTS' HOSPITAL

### TREASURER'S REPORT FOR THE YEAR 1922

---

The year 1923 will be a most important one for the Infants' Hospital. The Hospital building has been sold to Harvard University for \$325,000. A new building is under construction, and should be completed about the first of May, within a stone's throw of the old building and adjoining and connected to the Children's Hospital. A contract has been entered into whereby the Children's Hospital agrees to operate the Infants' Hospital and the Infants' Hospital has to pay the Children's Hospital the entire cost of operation.

Dr. Oscar M. Schloss, our present Medical Director, Professor of Pediatrics in the Harvard Medical School and Visiting Physician to the Children's Hospital, will remain in charge, so that the change will not be a change of method or treatment, but will be one in the line of economy and better service. On account of this economy and the added endowment resulting from the saving in the cost of construction of the new hospital over the amount received from the sale of the old, we shall in 1924 find it necessary to raise from our appeal perhaps \$35,000 instead of \$45,000 in 1923, and the new hospital will be better adapted to the care of infants than was the old.

The Treasurer's Report for the year 1922 is an encouraging one. The income was over \$6,000 larger than in 1921 owing to the greater popularity of the appeal. The expenses have been kept down and in certain departments have decreased so that instead of a deficit which we have had in four years from 1918 on, there is a balance of over \$6,000 which has been used to make up deficits of the past four years, only a small deficit now remaining.

One problem, however, is still unsolved, and that is a home for nurses. Most of our nurses are now boarding out, and when our new building is completed it will be necessary for all to board out. This is expensive and uneconomical in obtaining the best service. Such a home, however, cannot be built unless additional funds are donated for this purpose.

PHILIP STOCKTON,

*Treasurer.*

January 29, 1923.

## REPORT OF THE SUPERINTENDENT

---

Number of patients remaining in the Hospital, December 31, 1921 . . . . .	48	
Number of patients admitted during the year 1922.	611	
Number of patients discharged during the year 1922		614
Number of patients remaining in the Hospital, December 31, 1922 . . . . .		45
<hr/>		
Total . . . . .	659	659

Total number of hospital days . . .	13,898
Average number of patients daily . .	38+
Average days' stay a patient . . .	22+

### DISCHARGES :

Relieved . . . . .	381
Unrelieved . . . . .	24
Transferred to other hospitals . . . . .	39
Discharged on parents' own responsibility, or against advice . . . . .	33
Died . . . . .	137
Remaining in the Hospital, December 31, 1922	45
<hr/>	
Total . . . . .	659

There have been 132 less admissions than the previous year, with 469 more days' care; this making an increase in the average days' stay a patient. There has been a decrease of 3% in the number of deaths.

During the past three months there have been several resignations from the Executive force, who have been offered positions elsewhere, and accepted, this owing to the changes to be made here in the spring. Other conditions remain about the same.

As usual much has been done for the Hospital by the Ladies' Aid Committee, a full account of which will be found in their report. The taxi fare fund given by them has been especially useful in sending home discharged babies.

We again express our gratitude to all who have contributed time, money and services to the Hospital.

ALICE K. RUGGLES,  
*Superintendent.*

## REPORT OF THE SOCIAL SERVICE DEPARTMENT

For the Year 1922

---

During the past year there were 260 cases referred to this department, and of these 194 were actively followed. There were 1319 visits made to homes, relatives and interested agencies.

The work of the department has been conducted by a full time worker and part time secretary. As in previous years, the department has had a pupil nurse for training in social work. Owing to her affiliation with the hospital having been shortened to three months, her connection with the Social Service Department has also been necessarily shortened to two weeks instead of a month, as formerly. In this brief time it is impossible for her to gain more than a general idea of medical-social work. These nurses, however, have been interested and enthusiastic in their desire to be of service and have been of great assistance to the Department.

During the month of July the work was curtailed owing to the Worker's absence on her vacation and no substitute being appointed in her place.

Our aim has been in all cases to visit the home previous to the patient's discharge from the hospital and arrange for the necessary care of the child; also to follow our cases as closely as possible immediately after discharge as we invariably find most can be accomplished in instructing and assisting the mother in that period. With our limited Staff it has been impossible to give close supervision to babies needing it over an extended period of time. We have therefore depended upon the Baby Hygiene Nurses in this city and Child Welfare Workers in neighboring towns, and have always received their generous interest and co-operation.

There have come to us this year, as in previous years, babies whose home conditions are such that they cannot receive the

needed care on discharge and those without homes for whom our assistance has been asked in finding proper placement. With relation to such cases, eight in number, we wish to acknowledge the assistance rendered us by the Child Placing Agencies in placing these babies in supervised homes where there is assured good care.

We are indebted to the Milk Fund who have added several of our babies to their list during the year.

The interest and loyal support of the Social Service Committee of the Ladies' Aid, who have held their usual monthly meetings with the Worker, have been helpful and greatly appreciated.

In closing we cannot place too much emphasis upon the support and co-operation always extended us by our Medical Staff, Superintendent and Nurses.

Respectfully submitted,

MARION C. FUSSELL,

*Head Worker, Social Service Dept.*

## REPORT OF THE SECRETARY

During the past year the Ladies' Aid Committee have held their regular meetings from May to October. Miss Fussell, Dr. Schloss and Mr. Seymour spoke at various meetings. At the annual meeting in April the foregoing officers were elected to serve for one year.

The Ladies' Aid Committee have vastly increased their bank balance and also their expenditures. The tea given in conjunction with the Children's Hospital in January was financed entirely by contributions from members of the Ladies' Aid and the Welfare Association. The largest activity was the cabaret which this year took the form of an operetta written and produced by Mrs. Hendricks Whitman and managed by the usual cabaret committee headed by Mrs. Homer B. Richardson. This brought in the sum of \$4,797.67, the largest amount yet reported, and we turned over to the Hospital Treasurer, \$5,000.00, making up the difference.

The Boston Cat Club gave the proceeds of their annual show to this Hospital, amounting to more than \$900.00. This is the largest sum they have ever realized and they are again presenting the proceeds of their show to the Hospital, the first time they have given twice to the same charity.

The 1897 Sewing Circle donated \$140.00 and will do the same again next year.

Three hat sales netted the Hospital about \$800.00, and the annual doll sale this December brought in \$981.71.

The Ladies' Aid Committee have started a small business in children's bloomers and hats that they hope may in time become a steady source of revenue to the Hospital.

The Ladies' Aid have paid the salary of the Social Worker, endowed a bed for a year; paid for all materials used for Hospital supplies such as blankets, surgical gowns, garments, tape, webbing, diapers, flannelette, mill cotton, sheeting, spreads; given an illuminator for research work; supplied magazines for the Nurses' Library; leaving a balance of \$2,803.57 on January 1.

KATHARINE H. PUTNAM,

Mrs. JOHN HOMANS, JR., *Chairman*

Mrs. OLIVER AMES, JR.

Mrs. W. A. PARKER

Mrs. J. W. CUMNOCK

Mrs. HOMER B. RICHARDSON

Mrs. F. A. HARDING

Mrs. R. G. WADSWORTH

During the past year, with the exception of the summer months, the Social Service Committee has held its regular meetings before the monthly meetings of the Ladies' Aid Committee.

Miss Marion C. Fussell, who was appointed Head Worker in June, 1921, has shown most satisfactory results in the majority of cases.

The Committee feels that in having obtained a worker who was equipped to give practical nursing instruction to the mothers as well as to administer to the social needs, it has added to the value of its services.

Miss Fussell has sent in her resignation, to take effect January 15, 1923. It is with much regret we accept this resignation.

ALICE HOMANS,

*Chairman Social Service Committee.*

MRS. WILLIAM A. PARKER, IN ACCOUNT WITH THE LADIES' AID COMMITTEE,

## WET-NURSE DIRECTORY

1922

---

The Wet-Nurse Directory, at 63 Binney Street, was established by Dr. Fritz B. Talbot in 1910 and has been under the direction of the Infants' Hospital since 1914.

The object of the Directory is to supply mothers' milk to babies who are ill or who, for some reason, are deprived of their own mother's milk.

It also affords an opportunity for unmarried or deserted mothers to keep their babies with them and earn good wages, one of the rules being that the baby shall not be separated from its mother.

The mother and baby are examined by an Infants' Hospital physician, and no case is accepted unless it is found to be free from infectious or contagious diseases.

The girls receive \$8.00 a week and they supply us with drawn breast milk which enables us to fill many calls for milk and have varying amounts to be given away. All that is not ordered or sold by a certain time each day is sent to any hospital which wishes to send for it. In that way we have increased materially our opportunity for helping sick babies.

The charge for a wet-nurse is \$20.00 a week, if taken to the home and \$30.00 a week, if maintained at the Directory. Drawn breast milk may be obtained at the Directory at 25 cents an ounce. A room is especially equipped as a milk room, where milk is drawn and poured immediately into sterile bottles and iced. The Infants' Hospital is supplied with from 18 to 21 ounces a day.

The expenses of the Directory are necessarily large, owing to the need of so much personal attention and training for the girls and the necessity of much nourishing food.

When a wet-nurse is no longer able to nurse a baby, she is helped to find other work, usually through the society from which she came to us.

During the year 1922, there were sent out from the Directory 36,374 ounces of breast milk; of this 8,266 ounces were given to the Infants' Hospital and individuals.

Twenty-one nurses were admitted to the Directory during 1922. Four were rejected for different reasons, mostly insufficient milk. There were 108 calls for milk and 26 calls for nurses.

The Maternity Homes and Maternity Wards in hospitals have actively co-operated with us in sending mothers to the Directory.

An appeal was sent out by the Committee in March and was met with a generous response, but our need for funds is great, and in your gifts to charities this year, we hope you will remember the Directory for Wet-Nurses.

### FORM OF BEQUEST

*To the Corporation*

I give and bequeath to the INFANTS' HOSPITAL, a corporation  
established under the laws of the Commonwealth of Massachusetts.  
the sum of . . . . .

**Infants' Hospital.**

---

**BY-LAWS.**

---

**RULES OF DIRECTORS.**

# BY-LAWS.

---

## ARTICLE I.

### *Name.*

The name of the corporation is INFANTS' HOSPITAL.

## ARTICLE II.

### *Membership.*

The corporation shall consist of its present members ; and hereafter — in addition thereto — of all persons who at any legal meeting of the corporation are elected members thereof by ballot.

## ARTICLE III.

### *Seal.*

The corporate seal shall consist of a circular die bearing the words "Infants' Hospital — Incorporated — 1881 — Massachusetts" and such other device or inscription as the Board of Directors may determine. The Board of Directors may change the form of seal and the inscription thereon at any time.

## ARTICLE IV.

### *Officers.*

end. 8/17 The officers of this corporation shall be a board of not less than three (3) ~~nor more than twelve (12) directors~~, a President, a Secretary and a Treasurer, all of whom excepting the President shall be chosen by ballot annually, at each annual meeting. One of said Board of Directors shall be chosen President by the said directors. All the said officers shall hold their respective offices for one year, and until others are chosen and qualified in their stead. Vacancies temporary or otherwise in any office shall be filled by the Board of Directors.

## ARTICLE V.

### *Directors.*

The directors shall have all the powers usually vested in a Board of Directors of a business corporation. They shall have the

general direction, control and management of the property and business of the corporation. They shall have ample power to purchase and lease, pledge, mortgage and sell all such personal or real property and to make all such contracts and agreements in behalf of the corporation as they may deem needful or convenient for the successful prosecution of its business and operation. They shall have the management and application of all subscriptions, donations, funds and estates of the corporation, to be appropriated by them solely to the object of the corporation. They may from time to time place or authorize to be placed such funds of this corporation in the hands of such agents, whether individuals or corporations, as they think fit, provided always that the object of this corporation can in their judgment be better carried out by such agencies. Except as otherwise provided herein, they shall employ and at their pleasure remove all such persons and agents as they may deem necessary or proper for conducting the business of the corporation, and shall determine the compensation and the duties (in addition to those fixed by the By-Laws) of all the officers, agents, clerks and servants of the corporation, and generally do all such lawful acts and adopt all such lawful measures, consistent with the By-Laws of the corporation, as they shall deem best calculated to promote to the fullest extent the interests of the corporation. They may, however, delegate the determination of the compensation and duties of subordinate officers, agents, employees and servants to such person or officer as they may select.

## ARTICLE VI.

### *Executive Committee.*

The Board of Directors shall have power to appoint from their number an Executive Committee of not less than three (3) persons, who shall in the intervals between the meetings of the Board of Directors have all the powers of the Board. The Executive Committee shall adopt such rules as it shall deem expedient for the time and places of its meetings and the conduct of the business that may come before it.

### *Finance Committee.*

The Board of Directors shall have power to appoint a Finance Committee, to consist of the Treasurer and not less than two other members of the corporation, said Committee to have general oversight of the financial affairs of the corporation.

## ARTICLE VII.

*President.*

The President shall preside at all meetings of the corporation and of the directors. In his absence the senior director present shall preside.

## ARTICLE VIII.

*Secretary.*

The Secretary shall be sworn each year to the faithful discharge of his duties, and a record of the oath, with the evidence thereof, shall be made by him upon the records of the corporation. He shall attend the meetings of the members and of the directors, and shall record upon the book of records of the corporation the proceedings of the members and of the Board of Directors at their respective meetings. He shall notify the members and directors of their respective meetings in accordance with the By-Laws of the corporation, and shall perform such other duties as the directors shall from time to time prescribe.

## ARTICLE IX.

*Treasurer.*

The Treasurer shall give bond to the corporation, if required by the directors, in such sum and with such sureties as they may require, for the faithful performance of his duties. He shall be subject to such conditions and restrictions as may be made by the directors, have the custody of all moneys, debts, obligations, contracts, documents and other papers belonging to the corporation, and of its common seal, and shall safely keep the same, and shall collect all moneys from time to time due and owing to the corporation, and disburse the same pursuant to the contracts and obligations of the corporation or the order of its Board of Directors or of the members. He shall have power to invest, re-invest or sell assets of the corporation at his discretion, but shall obtain the approval of the members of the Finance Committee upon matters of unusual importance. He shall have power, with the approval of the members of the Finance Committee, to borrow money from time to time for the purposes of the corporation, and to pledge, assign or transfer securities or assets of the corporation as security for loans. The Treasurer shall have the sole and exclusive right to make, sign, endorse and accept, for and in behalf of the corporation, promissory notes, drafts and checks, and then only in the regular course of its business. He shall execute and

deliver, in behalf of the corporation, all such instruments under its common seal as may be ordered by the members or directors, unless their execution and delivery is otherwise provided for by vote, and shall perform such other duties as the directors may from time to time require. In case of the temporary inability of the Treasurer to act, an Assistant Treasurer may be appointed by the directors with the powers of Treasurer.

## ARTICLE X.

### *Meetings of Directors.*

The meetings of the directors shall be held as often as the needs of the corporation may in their opinion require, and may be called by the president or treasurer or any director; and the clerk shall notify the directors of such meeting whenever requested in writing by the president, treasurer or the director calling such meeting. A notice in writing, mailed postage prepaid, twenty-four hours before the meeting, addressed to each director at his usual place of business or abode or delivered to him in hand, shall be sufficient notice of the meeting. Notice of any meeting may be dispensed with if each director by a writing filed with the records of the meeting waives such notice.

## ARTICLE XI.

### *Notice of Corporation Meetings.*

Notice of all meetings, annual and special, of the members shall be given to each member by leaving such notice with him or at his residence or usual place of business, or by mailing the same, postage prepaid, addressed to him at his address as it appears on the books of the corporation, seven days at least before the time of such meeting. Notice of any regular or special meeting may be dispensed with if every member or his attorney thereunto authorized by a writing filed with the records of the meeting waives such notice.

## ARTICLE XII.

### *Quorum.*

Five members of the corporation and three members of the Board of Directors shall at their respective meetings constitute a quorum for the transaction of business.

## ARTICLE XIII.

*Corporation Meetings.*

An annual meeting of the corporation shall be held in the month of January in each year; the time and place whereof shall be fixed by the President. Special meetings of the members may be called by the President or by a majority of the directors, and shall be called by the Secretary upon written application of three or more members, stating the time, place and purpose of the meeting.

## ARTICLE XIV.

*Votes and Proxies.*

At all meetings of the members, each member shall be entitled to one vote, and absent members may vote and be represented by their lawfully constituted proxies.

## ARTICLE XV.

*Adjournment.*

All meetings of the members may be adjourned to any other time or place as may be decided by those present and represented, and it shall not be necessary to notify any member of any adjournment of any such meeting. Any business which could have been legally transacted at any meeting may be transacted at any adjournment thereof without new notification.

## ARTICLE XVI.

*Alteration of By-Laws.*

Any of these By-Laws may be amended, repealed or changed by a vote of a majority of the members of said corporation represented in person or by proxy at any annual or special meeting of the corporation. In the notice of such special meeting it shall be stated that the amendment, repeal or change of the By-Laws may be acted upon.

# RULES OF DIRECTORS.

---

## *Appointments.*

1. A Medical Director (non-resident) shall be appointed annually by the Board of Directors.

2. A Hospital Staff—to fill the following positions—shall be appointed annually by the Board of Directors upon nomination by the Medical Director.

1 Consulting Physician.

2 Consulting Surgeons.

1 Consulting Otologist.

1 Consulting Ophthalmologist.

1 Consulting Laryngologist.

1 Consulting Pathologist.

1 Consulting Dermatologist.

1 Physician *in chief.*

1 or more Assistant Physicians.

1 Surgeon.

1 Neurologist.

1 Dermatologist.

1 Ophthalmologist.

1 Roentgenologist.

1 Director of Preventive Pediatrics.

1 Director of the Milk Laboratory.

1 Director of Pediatric Research.

1 Director of Research in Nutrition.

1 Oto-Laryngologist.

3. A Resident Superintendent, a Social Service Worker, an Assistant Secretary, an Auditor and an Assistant to the Treasurer, and Head Nurse, may be appointed annually by the Board of Directors upon nomination by the Medical Director.

4. A House Officer, nominated after examination by the Physician, may be appointed by the Medical Director from time to time, such House Officer to serve a period of three months resident in the Hospital.

5. Laboratory Assistants may from time to time be nominated by the Physician and appointed by the Medical Director.

6. The Board of Directors may fill any vacancy, or at their pleasure remove any of the foregoing appointees.

## CHANGES IN RULES OF DIRECTORS.

Jan. 27, 1915 - Added one Bacteriologist.

Jan. 31, 1916 - Added one or more Associate Physicians.

Jan. 31, 1916 - Paragraph 3 changed to read as follows:

A Resident Superintendent, a Head Social Service Worker, an Assistant Secretary, an Assistant to the Treasurer, and such other subordinate officers as may be deemed necessary may be appointed annually by the Board of Directors upon nomination by the Medical Director.

Apr. 5, 1916 - Executive Rule changed by adding words "not less than" before the words "two members".

### *Duties.*

1. The Medical Director shall without the affirmative approval, but nevertheless subject to the approval of the Board of Directors, have control of the institution in all its departments ; of all house officers, employees and patients ; he shall, except as hereinafter provided, appoint, discharge and fix the salaries and duties of all employees, and shall have the charge of the buildings and appurtenances, and shall make all necessary rules and regulations for the care and government thereof. The purchase of all provisions, stores, instruments, medicines and other supplies shall be subject to his approval. He shall keep or cause to be kept a record of all moneys received by or expended for the Hospital through him, and shall submit the same to the Executive Committee from time to time, optionally or upon request of said Committee.

2. The Superintendent shall reside in the Hospital, and shall have, after the Medical Director, general care of the buildings and patients, and may under his direction purchase provisions, stores, clothing and other necessary supplies, and shall have the immediate charge thereof, and shall be responsible for their keeping and economical use. She shall keep an account of all moneys received or expended by her, and shall engage such domestics, nurses and nurse maids as may be necessary, with the approval of the Medical Director, and she shall perform such other duties as the Medical Director may from time to time require. She shall receive all applications for admission of patients to the Hospital, and shall keep a record of names of all patients, with their age, residence, dates of admission and discharge, with the results of treatment.

### COMMITTEES.

#### *Building and Maintenance Committee.*

1. The Building and Maintenance Committee shall be a permanent Committee composed of such persons as are for the time being both members of the corporation and Trustees under a certain Declaration of Trust known as the "Thomas Morgan Rotch Jr. Memorial Hospital for Infants Trust," duly recorded with Suffolk Deeds, the present Trustees being Clarence John Blake, Henry W. Palmer and Arthur G. Rotch. This Committee shall have control of all memorials placed in the Rotch Memorial Building, and shall have general supervision of all things pertaining to the Memorial Building and the maintenance thereof.

#### *Executive Committee.*

2. The Directors shall appoint annually an Executive Committee, consisting of the Medical Director and <sup>not less than</sup> two members of

the Board of Directors. They may meet from time to time, as necessity requires, without written notice, and may make such rules and regulations for their own government as they may deem wise.

*Finance Committee.*

3. The Directors shall appoint annually a Finance Committee, to consist of the Treasurer and not less than two other members of the corporation. They may meet from time to time, as necessity requires, without written notice, and may make such rules and regulations for their own government as they may deem wise.

*Auditing Committee.*

4. At each annual meeting the President shall appoint two members of the corporation as an Auditing Committee, for the purpose of auditing the Treasurer's Report for the ensuing year. Said Auditing Committee may, if necessary, engage the services of a professional auditor, at the expense of the corporation.

*Hospital Committees.*

5. Hospital Committees may without the affirmative approval, but nevertheless subject to the ultimate approval of the Board of Directors, be appointed from time to time by the Medical Director, for such purposes and under such rules and regulations as he shall determine.

REPORTS.

1. A written report shall be submitted at each annual meeting by the Treasurer, the Medical Director, the Physician, the Building and Maintenance Committee, and such other persons or committees as the directors may from time to time determine.

2. An *Annual Report* of the Hospital shall, at the expense of the corporation, be published, and circulated among the members of the corporation and their friends, as soon as may be after each annual meeting—said report to contain such matter and be in such form as the Executive Committee may determine.

Dec. 27/17 Committee on Supplies.  
Committee on Home Furnishing
